

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Desert Sands Charter High School

CDS Code: 19-64246-1996537

School Year: 2026-27

LEA contact information:

Victor Nardiello

Area Superintendent

principal@dschs.org

(661) 272-1225

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2026-27 School Year

This chart shows the total general purpose revenue Desert Sands Charter High School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Desert Sands Charter High School is \$34,228,146, of which \$28,703,962.00 is Local Control Funding Formula (LCFF), \$5,426,946.00 is other state funds, \$0 is local funds, and \$97,238.00 is federal funds. Of the \$28,703,962.00 in LCFF Funds, \$7,131,362.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Desert Sands Charter High School plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Desert Sands Charter High School plans to spend \$34,024,669.00 for the 2026-27 school year. Of that amount, \$28,885,797.00 is tied to actions/services in the LCAP and \$5,138,872 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Our independent study program implements a personalized learning experience for all students, including English learners, LTELs, low-income, foster youth, and special education students, that is carefully designed to address their unique academic and social-emotional needs. To serve our At-Promise and highly mobile population, expenditures are budgeted for, but not limited to, teacher and staff salaries and benefits, student interventions, curriculum development, professional development, materials, hardware, and software. Not included in the LCAP are the following:

- Audit fees
- Legal expenses
- Association fees
- Special Education expenditures
- Mandated Block expenditures
- Ancillary Grants
- AMS Prop 28: Arts and Music in Schools (AMS) Funding Guarantee and Accountability Act – Prop 28
- California Community Schools Partnership Program
- Student Support and Professional Development Discretionary Block Grant

## Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Desert Sands Charter High School is projecting it will receive \$7,131,362.00 based on the enrollment of foster youth, English learner, and low-income students. Desert Sands Charter High School must describe how it intends to increase or improve services for high needs students in the LCAP. Desert Sands Charter High School plans to spend \$7,131,362.00 towards meeting this requirement, as described in the LCAP.

The Local Control Accountability Plan (LCAP) directs the Supplemental and Concentration funding into goals and actions designed to help high-needs students with social-emotional support, academic interventions, counseling, and student engagement activities. Students have access to a robust tutoring program that supports their learning. Targeted academic interventions help close skill and knowledge gaps, ensuring that students become competent graduates. A brief description of the LCAP is that our first goal is a focus goal, and the first action is directed at helping our English learners and LTELs. Our second goal is a broad goal supporting student interest in a career or higher education. The third goal is a maintenance of progress goal that meets the mission of our school program, which is to retain students and help them graduate. The last LCAP goal is aimed at improving our educational partner engagement, especially for our English learners, low-income, and foster youth:

### Goal #1: Increase Academic Progress

- Action 1: English language learners and LTELs support staff, interventions, and materials.
- Action 2: All academic interventions and program materials.
- Action 3: Tutoring and support for students.
- Action 4: Counseling students toward graduation and materials
- Action 5: Student activities that increase learning efforts.
- Action 7: Professional Development for English learners.

### Goal #2: Students Will Gain Skills for College and Career Readiness

- Action 1: Career and college-readiness for English learners, LTELs, low-income, and foster youth students.
- Action 2: Professional development addressing English learners, LTELs, low-income, and foster youth students.
- Action 3: Technology for upgrading student programs.
- Action 4: Support for Standards-based Curriculum and Instruction

### Goal #3: Increase Student Retention

- Action 1: Student Retention Support personnel and incentive programs.
- Action 2: Social-emotional, trauma support services and materials.
- Action 3: Transportation for English learners, LTELs, low income, and foster youth students.
- Action 4: Access to nutrition for English learners, low-income, and foster youth students.

### Goal #4: Increase Educational Partner Engagement

- Action 1: Community/Parent Liaison and meaningful school activities.
- Action 2: Translation services and contracted services for outreach.
- Action 3: Educational partner events, personnel, and materials for engagement.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Desert Sands Charter High School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Desert Sands Charter High School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Desert Sands Charter High School's LCAP budgeted \$7,783,966.00 for planned actions to increase or improve services for high needs students. Desert Sands Charter High School actually spent \$8,166,852.00 for actions to increase or improve services for high needs students in 2025-26.

## Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

## Plan Summary [2026-27]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Desert Sands Charter High School (DSCHS) is a charter school located in Lancaster, California. Currently, there are two school sites that make up DSCHS, one school is located in Lancaster and the other in Lake Los Angeles. Lancaster, California is located in the Antelope Valley, 70 miles north of Los Angeles. As of 2023, Lancaster had a population of 166,236 people and the median household income is \$76,083. The primary ethnic groups represented in Lancaster are Hispanic (45.9%), White (35.5%), Black or African American (21.4%), and two or more races (22.3%).

Desert Sands operates under an independent study instructional model. However, students are required to attend on-site appointments for teacher conferences, instructional support, and assessments. The school’s mission is to support the development of the “whole student” and to prepare each learner for success in college and/or the workforce. Through an integrated and personalized, standards-based curriculum combined with job-readiness coursework, DSCHS equips students with the academic foundation and essential life skills necessary to thrive in the 21st century.

A cornerstone of the Desert Sands educational model is personalized learning. Each student is supported through the development of an individualized academic learning plan designed to promote meaningful engagement and maximize academic potential. Student progress and achievement are monitored using multiple assessment measures. Teachers document academic performance through the regular collection of student work samples, completion of instructional checkpoints, student-teacher conferences, and results from both site-based and state-mandated assessments.

Parents and guardians collaborate closely with supervising teachers in the development and implementation of individualized academic plans to ensure consistent support for student learning. Desert Sands provides a diverse, student-centered learning environment in which all students are held to high academic and behavioral expectations. The school emphasizes strong parental involvement, increased one-on-one interaction between teachers and students, student ownership of the learning process, access to technology, varied instructional environments, and curriculum choice.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

### Reflections: Successes

We analyzed our school data using the CA Dashboard, DataQuest, our SARC, and our LCAP Annual Data Report, which aligns with the 8 state priorities. Although the school is identified for Comprehensive Support and Improvement (CSI), due to the federal graduation rate, and for Differentiated Assistance (DA) for student groups in the Red, there were significant successes as shared in the key metrics below.

#### Graduation Rate

Our CDE Dashboard Alternative School Status (DASS) Graduation rate was calculated at 92.4%. This is high for a DASS school serving students who enroll needing more than +30 credits to graduate on average. This is a +14.90 point increase from the baseline year. 94.3% of our low-income students graduated in 2025. Just below the all-student groups were our Hispanic students at 89.3%. The White student group graduated at 100%. Additionally, our students with disabilities graduated at 93.3%. Our African American students graduated at 94.1%. Most of our student groups grew by +2 points compared to the previous year. Our English Learners were at 91.7%. Our LTELs, foster youth, homeless, and Asian student groups did not have enough in the population to warrant a calculation. This shows that our mission of meeting students' academic and social-emotional needs was effective. We plan to increase our success with our students by increasing such supports as tutoring for all seniors.

#### English Learner Progress

The CA Dashboard ELPI is Green and shows 46.2%, making progress towards English. Although this is an increase of +4.8 points from the previous year. Our LTEL group was Green, showing 50.0%, and increasing by 8.9 points. This meets our expected outcome, which is moderate growth. Our English Learner reclassification rate grew 16 points to 26%. The state average for the English Learner Progress Indicator was 46.4% of all EL students who made progress last year. We hope to meet that soon.

#### CA Dashboard English Language Arts

Our Academic Indicator for English Language Arts showed the all-student group performing at 31.1 points below standard and received an Orange status. We had no students in the Red this year. This is significant because it shows that our interventions are working. Our Hispanic student group was Orange, with a decline of 21.8 points, and our socioeconomically disadvantaged group increased by 3.4 points and was Yellow. Our African American, American Indian, Asian, White, English Learners, LTELs, homeless, foster youth, students with disabilities, and all other groups did not have enough students for a color status to be calculated.

#### CAASPP English Language Arts

The CAASPP scores also showed that 40% of our 11th graders were meeting or exceeding standards. This was an increase of 9 points from last year and meets the expected outcome of 40%. Most of our students come to us deficient in credits and skills, and they score at the 7th-grade level in ELA. White and homeless students scored above the all-student group at 50% proficient. The student groups who were below the all-group were low-income at 37%, students with disabilities at 17%, and Hispanic students at 39%. Our African American, Asian English learner, and foster youth student groups did not have enough students for a calculation. This is because we serve students who are traditionally 3-4 grade levels behind in their schooling.

#### CAASPP Mathematics

Our 11th graders scored 7% meeting standards on the CAASPP for Mathematics. This is a 4% growth from the previous year and is approaching our expected outcome of 10%. The low-income student groups scored at 6%. Our White student group and Hispanic group were both above the all-student group at 17% and 8%, respectively. Our African American, foster youth, Asian, English learners, students with disabilities, and all other student groups did not have enough students to warrant a calculation. This is because students who enroll with us are typically 3-4 grade levels behind in their schooling.

#### CAASPP Science

The CAASPP Science scores also showed that 32% of our high school students were meeting or exceeding standards, and this is above our expected outcome of 25%. This was about a +18% points increase from the baseline year. Above the all-student group was our low-income students were at 35% and our White students at 50%. The Hispanic and African American scoring at 36% and 33%, respectively. Our English Learners, Asian students with disabilities and all other student groups did not enough students taking the test to warrant a calculation. We serve students who are traditionally 3-4 grade levels behind in their schooling.

#### Attendance

Our attendance rate is high at 89.57% and is +3.47 percentage points. We believe that the re-engagement strategies that we implemented, to help students and families during the crisis, also contributed to increasing the students' average attendance rate. Our teachers and retention support staff worked to address the serious concerns we had for students staying enrolled in school and attending regularly.

#### Success Rate

Another important measure for us is our success rate, which is the percentage of students who graduate, along with the percentage that are retained or returned to their local school district. This metric was recalibrated to be an end-of-year measurement. Our success rate was running high at the end of last year and is 95.25%. This is approaching the target outcome of 97.75%. It's been high over the last three years and shows that our mission of meeting students' academic and social-emotional needs continues to be effective.

#### Non-Completer Rate

This metric was recalibrated to be an end-of-year measurement. As a result, we saw an increase in our non-completer rate 4.75%, which is very low and close to our 2.25% threshold. Our teachers and retention support staff work to address the serious concerns we have for students potentially dropping out. Building relationships and staying connected to students has kept the non-completer rate low.

#### Credit Completion

Our credit completion rate is a very important local metric that helps to monitor progress towards graduation. It has increased over the last two years. With additional supports in place, such as tutoring, our students were able to earn on average, +22% more credits compared to

the baseline. Our low-income students also earned +22% higher credit completion rate than the baseline year. Students in the low-income and special education groups earned +2.10 and +2.28 points higher, respectively, in credit completion compared to last year. The foster youth student group also increased slightly by +1.00. The English Learner group was +2.10 points and above the all-student group. We expect to continue to increase our credit completion rates for all students so that they stay above 4.0 or higher each learning period.

### Suspension and Expulsion Rate

Suspension rate was Yellow on the CA Dashboard. It was 0.6% for the all-student group. No student groups were in the Red. Earning an Orange status was our African American, homeless, and foster youth with increases over 1%. Earning a Yellow status were White, students with disabilities, and socioeconomically disadvantaged. Hispanic students were Green. In the Blue were English learners, LTELs, Two or More Races, and all other student groups had 0% suspensions. Expulsions were low at 0.0%.

### School Survey Results

Our school survey data shows that 94% of our students felt connected this year. This is the same as last year and is over our expected outcome. This is an important metric for us, and we expect it to be higher each year. Face-to-face interaction with a caring adult will help students feel connected. Additionally, 100% of the students surveyed said that they feel safe at school. It is very important to us to ensure that we are doing everything possible to provide students with the time and attention to support them during their time with us. Teachers also reported that 99% are feeling safe and 96% feel connected to the school. We have high expectations for school safety and connection, and we intend to continue to improve our school connectedness.

Parents are encouraged to participate in their students' education as well as school activities, events, and celebrations. This year, parents participate in our PAC and ELAC meetings. On the school survey, 98% said that they feel encouraged to participate this year, which is a +10 point increase from the baseline year.

Standards were met for the following state indicators:

- \* Parent Engagement,
- \* Local Climate Survey,
- \* Access to a Broad Course of Study,
- \* Basic Teacher and Instructional Materials, and
- \* Implementation of Academic Standards.

How will we maintain our success?

We plan to maintain and build on our success by implementing our LCAP actions with fidelity, carefully monitoring our progress, and discussing our results within our professional learning community (PLC). We will continue to grow in our capacity as we engage in a process of continual improvement based on the Plan-Do-Study-Act model (PDSA). Ongoing data discussions between teachers and administration will be grounded in established (PLC) protocols, with a focus on improving student outcomes. These regular PDSA cycles of collaboration will ensure continued alignment with and commitment to our LCAP actions.

The goals and actions articulated in our LCAP support our personalized learning model, and adequate funding is provided to ensure that effective strategic supports, such as tutors, student retention services, and trauma-informed trained teachers, continue. We monitor the

progress of our students through multiple measures around engagement and academic performance. LCAP data and other local data are discussed quarterly and shared with our educational partners, including the school board.

Due to the nature of our credit recovery, independent study, and Dashboard Alternative School Status (DASS) program, certain data points are not included in the LCAP. Students do not take Advance Placement, or pass EAP in any amount greater than 11, and the CDE prohibits any potentially identifying student data. The federal calculation for the 4-5 year cohort graduation rate and the chronic absenteeism rate metrics are also not a match for our program, because the calculations are for seat-based programs and not short-term independent study programs that have students with high mobility. We utilize alternative metrics such as the one-year DASS graduation rate and local attendance rates to monitor and report our students' progress towards graduation. Furthermore, our dropout rate is calculated as our non-completer rate, which tracks any student who does not report to us that they have continued with another program to complete their education.

#### Reflections: Identified Need

Our school is participating in Differentiated Assistance (DA), and we are working with county experts. We did a robust needs analysis for student groups in the Red on the CA Dashboard. We also used additional data, state and local metrics, to identify student groups' performance gaps and resource inequities. We used student outcomes data from the latest CA Dashboard, DataQuest, CALPADS reports, and local LCAP data tracking. The data shows that multiple areas must be addressed as goals and actions in the LCAP. Our internal data collection and reporting system uses metrics that are aligned with state indicators and local performance indicators. We regularly monitor and evaluate our identified outcomes so that we can make program adjustments in areas that require improvement. As a professional network, we used a fishbone protocol for our needs assessment around our low graduation results. This revealed that multiple causes play into the graduation rate that need to be managed, such as credit completion, attendance, student motivation, parent engagement, and tutoring.

Our school was identified for Comprehensive Support and Improvement (CSI), as a result of a low federal 4–5-year cohort graduation rate. Each year, we engage in a cycle of improvement and examine the school data to determine if we will need to take action in the areas of graduation, credit completion, EL reclassification, and academic indicators by increasing tutoring support for students who are in line to graduate. This section describes our needs assessment to meet the federal requirement for CSI.

State performance indicators from the California School Dashboard show the following indicators were very low:

#### 5-Year Cohort Graduation Rate

The federal 4–5-year cohort graduation rate is very low and qualified us for CSI. The 5-year graduation rate was 34.5% in 2025, 24.4% in 2024, and 31.0% in 2023. This is far below the 68% threshold, and it is an increase of 10.1 points. The student group data used in our analysis is from the Dashboard and is also reported in DataQuest. Our Hispanic students were at 28.8% and increased by 3.1 points. Our Hispanic and students with disabilities student groups were below the all-student group at 28.8% and 33.9%, respectively. The African American student group was above the All group with 34.8%. Additionally, our socioeconomically disadvantaged were at 32.1% and increased by 7.8 points. For our English Learners and LTELs were at 31.1% and 31.7%, respectively. The homeless, foster youth, and all other student groups were not enough students in those groups to warrant a performance color. We recognize the inequities between the highest student group and the other student groups, and our plan to address the gap in graduation scores is outlined in our CSI plan and the LCAP.

## CA Dashboard Mathematics

The Academic Indicator for Mathematics for the all-student group has a Red status, and it declined by 6.5 points from the previous year. The all-group was below standard by 142.2 points. Our Hispanic student group maintained, and our socioeconomically disadvantaged student group decreased by 6 points. Our African American, American Indian, Asian, English Learners, LTELs, students with disabilities, homeless, foster youth, and all other student groups did not have enough students to warrant a calculation. There were no other groups that were two or more performance levels below the “all-student” group.

## Retention Rate

One critical focus of our program is to improve the performance of our disengaged students and address social-emotional concerns such as trauma. We identify, early on, which students are not completing their schoolwork and then assign them tutors to ensure that they help support student learning. This metric was recalibrated to be an end-of-year measurement. At the end of 2025, our retention rate was 83.01%, which is 9.9 points below our target outcome. We will continue to ensure that our teachers, tutors, and counselors collaborate as a team to retain students.

## Student Groups with Lowest Performance Levels from 2023 CA Dashboard:

Graduation Rate Indicator: African-American, Hispanic, socioeconomically disadvantaged, students with disabilities, and White.

English Learner Performance Indicator: none

Academic Indicator -English Language Arts: Hispanic and socioeconomically disadvantaged.

Academic Indicator -Mathematics: Hispanic and socioeconomically disadvantaged.

College and Career Indicator: African-American, Hispanic, socioeconomically disadvantaged, students with disabilities, and White.

## Learning Recovery and Emergency Block Grant

Our school had unexpected LREBG funds for the 2025-26 school year. The LREBG funded action results may be found in Goal 1, Action 8, prompt #2. See action for description of the rationale for choosing the selected actions.

# Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

## Reason for Technical Assistance:

Initially, our collaborative CSI/DA improvement team analyzed the 2023 CA Dashboard Academic Performance Indicator results and identified the student groups in the red were our Hispanic and Socioeconomically Disadvantage in ELA and Mathematics. Desert Sands received technical assistance through the Los Angeles County Office of Education and participated in trainings aimed at supporting improvement planning and the execution of PDSA cycles. Utilizing state and local data, we conducted a thorough root cause analysis, formulated a theory of action/improvement, and actively collaborated within the PDSA cycle to drive improvement initiatives. Desert Sands did a collaborative evaluation and professional needs assessment and analyzed data on the California School Dashboard and internal data. With support from LACOE, it was determined that Desert Sands will focus on English Language Arts CAASPP scores for Hispanic students

and the reclassification rate of English Learners. Desert Sands site leadership created a system that better tracks the classes students are assigned, with an emphasis on students completing math and English credits. Staff who work with English learners will be better supported through increased data tracking and professional development. Finally, there will be a bigger push to increase the number of students seeing a tutor. Desert Sands expects these adjustments to have a positive impact on Desert Sands student groups' performance on the Dashboard.

Summary of the work underway as part of receiving technical assistance:

This year, we are continuing to work with the Los Angeles County Office of Education as part of our technical support for Differentiated Assistance. Our CSI/DA improvement team collaborated with them multiple times this year and continues to receive support. The DA team analyzed the 2025 CA Dashboard Academic Performance Indicator results and identified that the mathematics indicator decreased back to Red and that Hispanics and Socioeconomically Disadvantaged students were the student groups in Red. The ELA indicator decreased back to Orange but no student groups are in the Red. Since the baseline year, we have seen a +16.2 point increase in ELA and a +7.7 point increase in math. What made the '24-'25 school year so successful in growth in both math and ELA was the focus on students turning in core credits every LP and requiring students to receive interventions if their NWEA scores indicated they needed it. Given the last years success, we completed another needs assessment to identify root causes and worked with the county on possible actions that could improve our Hispanic students graduation indicator. We focused on tracking seniors credit completion, having counselors meet with seniors and enrolling students in dual enrollment and college success classes. Action 1.2 in the 2026-2027 LCAP was updated with these interventions in order to address this required action. Due to the current CA Dashboard data, site leadership knows that another meeting and needs assessment must be done to address the regression in data over the past year. It should be understood that getting back to the goals of the '24-'25 school year should be reestablished given the results.

Finally, we plan to develop our MTSS framework to improve our comprehensive approach in a system of continual support and improvement.

## **Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Desert Sands Charter School is a single-school Local Education Agency.

### ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

We are a single-school LEA with Dashboard Alternative School Status. This is a summary of how we supported ourselves in the development of the Comprehensive Support and Improvement plan. With guidance and training from the CDE, the county, and our local professional network, we did the following:

- We assigned our State and Federal Programs coordinator to collaborate with the school in conducting a needs assessment. By analyzing the 2023, 2024, and 2025 CA Dashboard 5-year cohort graduation data to identify gaps and inequities between the

highest student group and the other groups. The results are described in the Identified Needs section in the LCAP Plan Summary. Our framework was Carnegie's Improvement Science, and our model is the Plan-Do-Study-Act process for continual improvement.

- The type of data collected for the needs assessment was CA Dashboard, NWEA test results, graduation results, grade level enrollment, senior survey results, annual survey results, dual enrollment data, attendance data, tutoring participation, EL progress, types of counselor referrals, and credit completion data.
- The educational partners were engaged in the process through meetings held by leadership, sharing the data, and eliciting consultation from ELAC, PAC, staff, and student groups. Our discussions centered on equity for all students with regard to learning expectations and obstacles to achieving their potential. Access to quality materials, aspirations beyond high school, and instructional support such as tutoring were also discussed. Additionally, community partners reviewed graduation data. This helped to reveal root causes: lack of academic ownership; lack of motivation; lack of relevant, highly engaging programming; and social-emotional barriers because of induced trauma. The admin team utilized the fishbone protocol around credit completion rates, and the potential resource inequities questions helped frame our analysis. We then engaged our educational partners, PAC/ELAC parents, students, teachers, classified, and administration in the analysis of the data. This led to their support for Goal 1 Action 3, which assigns intensive tutoring to students as a means to improve the graduation rate. They also supported the development of strategic one-to-one academic planning and increased post-secondary readiness opportunities.
- The data informed the CSI plan by guiding the root cause analysis towards the need for a focus on both 9th and 12th grade one-to-one academic planning, and post-secondary readiness through dual enrollment and CTE courses. At the same time, the data demonstrates the need to continue intensive tutoring supports. Viable research-based strategies, proper implementation, and progress monitoring would increase student credit completion and, therefore, graduation rates.

#### Evidence-Based Interventions – 1:1 Academic Planning, Intensive Tutoring and Post-Secondary Readiness

The Director of Educational Services and the State and Federal Programs Coordinator supported the school by leading the principal's team through the needs assessment, identifying the evidence-based strategies, and then together led the staff through the selection of evidence-based strategies at their staff meeting.

The process for matching the selected intervention with the identified need was a collaborative endeavor through our professional network. We met regularly to study the data. From our needs assessment, we saw that students whose teachers created a more robust academic plan and followed it were more successful in school. We also saw a correlation in higher credit completion rates with those students who engaged in weekly tutoring sessions, who were enrolled in a dual enrollment class, and/or participated in a CTE class or an SGI class than those who were not. With guidance from CDE and county offices, we searched out solutions to improving our graduation rate, and we landed on the following evidence-based research. In determining the selection of strategies to improve graduation, we considered and identified the following evidence-based research interventions from these sources:

- The California Department of Education (CDE) and the California Collaborative for Educational Excellence (CCEE) provide evidence-based research focused on high-impact tutoring (also known as high-dosage tutoring). Their resources emphasize that

tutoring is one of the most effective interventions for accelerating learning, particularly for students performing below academic thresholds.

- The CCEE, in partnership with J-PAL North America (MIT), provides a "Learning Path" on implementing evidence-based tutoring. Key Principles of Effective Tutoring: The CCEE highlights that to be effective, tutoring should be:
  - o High-dosage/Frequency: Three or more sessions per week.
  - o Integrated into the school day: Tutoring is most effective when done during school hours.
  - o Trained Personnel: Tutoring is more effective when conducted by teachers or professional tutors rather than volunteers.
  - o Small Group/1-on-1: Specific ratios are recommended (no more than 1:4 for middle/high school).
- CCLA (California Collaborative for Learning Acceleration): CCEE administers this initiative, providing an online repository of professional learning for mathematics, literacy, and language development.
- The impact of high-impact tutoring on student attendance: Evidence from a state initiative: Lee, M. G., Loeb, S., & Robinson, C. D. (2025). Ed Working Paper No. 24-1107, Annenberg Institute at Brown University.
- Personalized Learning Initiative Research Team. (2024). Realizing the promise of high dosage tutoring at scale: Preliminary evidence for the field. University of Chicago Education Lab & MDRC.
- Guryan, J., Ludwig, J., Bhatt, M. P., Cook, P. J., Davis, J. M. V., Dodge, K., Farkas, G., Fryer, R. G., Jr., Mayer, S., Pollack, H., Steinberg, L., & Stoddard, G. (2023). Not too late: Improving academic outcomes among adolescents. *American Economic Review*, 113(3), 738–765.
- Anger, S., Christoph, B., Galkiewicz, A., Margaryan, S., Sandner, M., & Siedler, T. (2025). Online tutoring, school performance, and school-to-work transitions: Evidence from a randomized controlled trial (Discussion Paper No. 18307). IZA Institute of Labor Economics.

Therefore, the following strategies will be scaled or implemented into our CSI strategic plan:

#### I. Continue—Expand Services

a. Intensive Tutoring—Coordinated to reflect one-to-one academic planning and Tier 1 intervention. As per our data analysis, students who received tutoring completed an average 50% more work than their counterparts. This directly aligns with The Impressive Effects of Tutoring on PreK–12 Learning. This research was on math tutoring and used a randomized controlled trial of 2,718 males in the ninth and tenth grades from the south and west sides of Chicago. They were 90% on free and reduced lunch programs, and 95% were either African American or Hispanic, which is like our student population. They demonstrated an increase in math scores by 0.19 to 0.31 standard deviations, as well as increases in math grades by 0.50 standard deviations. The positive impact of tutoring is also supported by the meta-analysis of the studies listed above, with one study in particular stating that there was an effect size for this practice above a 0.33 standard

deviation (Nickow, Oreopoulos, Quan, 2020).

The rationale for selecting the intervention is based on three main components. First, our students are exceptionally low in math skills, which inhibits their capacity to earn credits towards graduation. Secondly, education research points to intensive tutoring as a viable means to increase math performance, which in turn will increase credit completion. Thirdly, increasing students' capacity to earn credits through intensive tutoring will yield higher graduation rates.

b. Dual Enrollment—Coordinated to reflect one-to-one academic planning and post-secondary readiness. As per our data analysis, approximately 15% of students engaged in a dual enrollment course. Of these, all seniors have completed college Profiles, completed the FAFSA, and graduated within the one-year DASS cohort. This directly aligns with two studies that meet WWC group design without reservations: Berger et al. (2014) and Edmunds et al. (2015). The Berger et al. (2014) study found a statistically significant correlation between students participating in a dual enrollment course and completing high school. Out of a sample size of 2,458 students the average improvement index was a positive +9 percentile points. A conclusion of statistically significant was given. Out of a sample size of 2,141 students, the average improvement index was a positive +3 percentile points when analyzing students in dual enrollment classes and general academic achievement in high school. This, too had the conclusion of being statistically significant. The Edmunds et al. (2015) study found comparable results: out of a sample size of 1,594 students, the average improvement index was a positive +5 percentile points for students' individual enrollment and completing high school. Out of a sample size of 676 students, the average improvement index was a positive +13 percentile points for students in dual enrollment and academic achievement in high school. Both findings are categorized as statistically significant.

The rationale for selecting the intervention is based on three main components. First, many of our students will be first-generation college students; dual enrollment allows for acclimation. Secondly, dual enrollment offers us the opportunity to teach, model, and practice study skills and discipline needed to thrive in the demands of college life. Thirdly, our students can gain college credits at no cost to their families. Moreover, Preventing Dropouts in Secondary Schools affirms, “students are engaged in school when they are interested in their classes and see them as important to their future, and when they feel they belong in school. Engaged students have good attendance, come to class prepared, and are able to navigate daily challenges in and out of school. These behaviors, in turn, improve course pass rates and help students establish positive relationships with teachers and peers, reinforcing students' sense of belonging in school” (Rumberger et al, p. 28).

## II. Implement—New Supports and Services

a. One-to-One Academic Planning and Advising—Coordinated to reflect the personalization of our independent study model. As per our data analysis, students who received ongoing advising and monitoring of their academic plan—12th-grade students—completed more work than all other students. The consistent guidance and mentorship allowed for student voice, efficacy, and advocacy—an overall growth mindset. All incoming 9th-grade students will receive one-to-one academic planning and advising, and will engage in monthly progress monitoring meetings. This directly aligns with Yeager et al. (2016), “We test the methodology using the case of fixed versus growth mindsets during the transition to high school. Qualitative inquiry and rapid, iterative, randomized “A/B” experiments were conducted with 3,000 participants to inform intervention revisions for this population. Next, 2 experimental evaluations showed that the revised growth mindset intervention was an improvement over previous versions in terms of short-term proxy outcomes (Study 1, N=7,501), and it improved 9th-grade core-course GPA and reduced D/F GPAs for lower-achieving students when delivered via the Internet under routine conditions with 95% of students at 10 schools (Study 2, N=3,676). Although the intervention could still be improved even further, the current research provides a model for how

to improve and scale interventions that begin to address pressing educational problems. It also provides insight into how to teach a growth mindset more effectively.

The rationale for selecting the intervention is based on three main components. First, most of our 9th-grade families are unfamiliar with the independent study model. Secondly, most incoming first-year students score below grade level on NWEA MAP tests. Thirdly, many incoming 9th graders lack self-awareness and lack experiences to help determine affinity assets, both of which are useful to determine post-secondary interests.

Resource Inequities Analysis (Based on data using the 2023, 2024, and 2025 Dashboards as stated in the Reflections – Annual Performance section)

The Director of Educational Services and the State and Federal Programs coordinator provided guidance to the school through a resource inequities analysis. The CA Dashboard 5-year graduation rate was 34.5% in 2025, 24.4% in 2024, and 31.0% in 2023. This is far below the 68% threshold, and it is an increase of 10.1 points. The student group data used in our analysis is from the Dashboard and is also reported in DataQuest. Our Hispanic students were at 28.8% and increased by 3.1 points. Our Hispanic and students with disabilities student groups were below the all-student group at 28.8% and 33.9%, respectively. The African American student group was above the All group with 34.8%. Additionally, our socioeconomically disadvantaged were at 32.1% and increased by 7.8 points. For our English Learners and LTELs were at 31.1% and 31.7%, respectively. This showed that funds should be principally directed to LCAP Goal 1-Action 3, Goal 1-Action 4, Goal 2-Action 3, and Goal 3-Action 2. The data shows that there are inequities in performance. Our LCAP, with its CSI plan, addresses them in a comprehensive manner with research-based strategies such as 9th and 12th-grade one-to-one academic planning and post-secondary readiness through dual enrollment and CTE courses.

We are a DASS charter school, and as a single school LEA, we do not take the federal CSI funds because the LCFF funding for our LCAP is sufficient. The resource inequities are addressed by using LCFF funds to adequately support our funding in LCAP Goal 1-Action 2, Goal 1-Action 4, Goal 2-Action 3, and Goal 3-Action 2 to support the gaps of academic planning and post-secondary readiness. These goals will provide funding to enhance and/or implement these strategies, which are essential to drive personalized academic and social-emotional plans for all students (through intentional cohort structures). Each personalized plan will be designed to create an optimal path toward graduation and post-secondary readiness. The guiding framework used for this resource analysis was from The Alliance for Resources Equity@[www.educationresourceequity.org](http://www.educationresourceequity.org). We also used the Dimensions of Resource Equity – School-level Diagnostic Questions to determine key resource levers and create equitable learning experiences for all students. Additionally, the inequities rubric, provided by the Los Angeles County Office of Education, was used to help identify if there were any barriers to the following:

- Access to Highly Qualified Teachers
- Access to Counselors
- Access to Student Retention Services
- Access to Tutors
- Access to interventions, both social-emotional and academic
- Access to incentives for attendance, graduation, and retention
- Access to support for high needs English Learners, foster youth, special education, and homeless
- Access to technology and instructional materials

Furthermore, the framework for guiding our process was based on Improvement Science in Education from the Carnegie Foundation for the Advancement of Teaching (2015). The Plan, Do, Study, Act (PDSA) model, when done frequently and in collaboration with a network, will help our school improve its outcomes on multiple metrics. Through our professional network, we used a Fishbone protocol to determine root causes behind the conditions and drivers that lead to the outcome of a graduation metric. This helped us to define the problem we would like to address. Our discussion focused on what changes we wanted to introduce and why. We plan to collect and share data regularly around credit completion, attendance, and senior graduation progress to help answer the question: “How will we know which change is an actual improvement?”

The Six Principles of Improvement from the Carnegie Foundation helped provide a foundation for our analysis:

- 1) Make the work problem specific and user-centered: What specifically is the problem we are trying to solve?
- 2) Variation in performance is the core problem to address: What works, for whom, and under what set of conditions?
- 3) See the system that produces the current outcomes: What are the drivers that yield change?
- 4) We cannot improve at scale what we cannot measure: What are the key outcomes that track progress?
- 5) Anchor practice improvement in disciplined inquiry: How will we engage in rapid cycles of Plan, Do, Study, Act (PDSA)? “How will we know which change is an actual improvement?”
- 6) Accelerate improvements through networked communities: How can we accomplish more together?

These guiding principles will be utilized in our schools throughout the year as we meet to discuss progress and next steps.

## ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The Director of Educational Services and the State and Federal Programs coordinator will support the school team and work with them in monitoring and evaluating the effectiveness of their improvement plan throughout the school year.

The process, including metrics, used for monitoring the implementation of the CSI plan will be done by the Director of Educational Services, the State and Federal Programs coordinator, and site leadership. Leadership will meet regularly to review the plan's implementation and effectiveness. New and existing data tracking will be conducted on our internal data tracking platforms, and reports using this data will be given to staff monthly. The principal/leadership team presents the credit completion and tutoring data to the school site. This will be done every learning period (which is four weeks).

Additionally, we will collaborate with our professional learning community network and implement the Plan, Do, Study, Act (PDSA) model as our process for continuous improvement. Through a collaborative team of school educators, we will use school data: NWEA, credit completion, attendance, tutoring data, dual enrollment and CTE participation, professional development participation, and senior progress to inform our inquiry and help focus on our results. By monitoring our evidence-based interventions, we can determine if the interventions are positively impacting each cohort's outcomes. We will study benchmark data to drive momentum or to determine what adjustments might be necessary to address problems of practice.

In addition, counselors will collaborate with teachers and families to ensure students are appropriately pacing towards graduation. The students' individualized plans will be reevaluated biannually to account for changes in the students' interests and post-secondary goals. We will continue to develop the skills of our teachers/tutors and care providers to both monitor and respond to the academic and SEL needs of our students.

To monitor progress on our Comprehensive Support and Improvement plan, we will engage teachers, students, parents, and the school board monthly. We will share our benchmark progress on our CSI plan at least twice a year. We can build the capacity of our Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) by sharing the school data progress with them at their meetings and eliciting their feedback as part of our PDSA model. Our school board learns about student progress towards graduation on a regular basis, but with the CSI plan in place, we will ask for their feedback and input as part of our process. We will leverage student voice as we continue to collaborate and celebrate as students make progress towards graduation.

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
<p>PAC/Parent Advisory Committee</p>	<p>9/3/25 - Agenda items included: What is PAC, supporting your student mental health, community programs benefits, school data, LCAP data update, upcoming events and parent feedback survey. Agenda items tied to LCAP Goal 1 - Increase Academic Progress, Goal 2 - Students will Gain Skills for College and Career-Readiness, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>10/24/25 - Agenda items included: Community program supports and benefits, engaging families, site steering committee, LCAP funds and update, and updates on other grants. Agenda items tied to LCAP Goal 1 - Increase Academic Progress, Goal 2 - Students will Gain Skills for College and Career-Readiness, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>3/5/26 - Agenda items included: Meeting new LCC, WASC update, parent volunteers needed, cell phone policy update, available parent resources, SARC available, CA Dashboard data gone over, and CSI and DA updates. Agenda items tied to LCAP Goal 1 - Increase Academic Progress, Goal 2 - Students will Gain Skills for College and Career-Readiness, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>4/30/26 - Agenda items include: Differentiated Assistance (DA) share out, Comprehensive Support and Improvement (CSI) share out, LREBG intervention programs and support staff, current data, new</p>

Notable topics: Cell phone policy, Pathways trips, annual survey results, grad rates so far, upcoming SPED/SST trainings, 504 eligibility clarification, CTE and dual enrollment updates and messaging, and PD options for curriculum and instruction. Agenda</p>

Educational Partner(s)	Process for Engagement
	<p>items tied to LCAP Goal 1 - Increase Academic Progress, Goal 2 - Students will Gain Skills for College and Career-Readiness, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p>
Administrators	<p>The Desert Sands leadership team meets on a weekly basis to support ongoing program implementation and continuous improvement efforts. During these meetings, the team consistently reviews student data to monitor progress toward desired outcomes and to determine if adjustments to supports or strategies are needed. The team also collaborates on planning upcoming events, refines implementation plans for current and future initiatives, and addresses site and staffing needs. Regional personnel are also brought in, as appropriate, to provide guidance, resources, and additional support. Through this structured approach, Desert Sands ensures that decision-making is data-informed and responsive to student and site needs. Agenda items tied to LCAP Goal 1 - Increase Academic Progress, Goal 2 - Students will Gain Skills for College and Career-Readiness, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>A sample of dates the team met: 7/23/25, 8/13/25, 9/10/25, 10/22/25, 11/12/26, 1/21/26, 2/25/26 and 3/17/26</p>
Students	<p>8/15/25 - Student Awards. Desert Sands hosted an awards ceremony to recognize students who demonstrated strong academic progress and achievement. Students and their families were invited to attend, providing an opportunity to celebrate accomplishments and strengthen school-community connections. Activity tied to LCAP Goal 1 - Increase Academic Progress, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>11/21/25 - Disney Grad Night - This event was hosted for fall graduates. Graduates got to Disneyland and participate in all the activities taking place during the Disney Grad Night event for graduates. Activity tied to LCAP Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p>

Educational Partner(s)	Process for Engagement
	<p>11/8/25 - Winter Ball - Desert Sands hosted a student dance/social gathering to provide an opportunity for students to connect, build relationships, and engage with peers in a positive and supportive environment outside of school. Activity titled to LCAP Goal 1 - Increase Academic Progress, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>12/12/25 - Fall graduation - Desert Sands hosted a graduation for its students who completed their high school credits in the fall semester. Graduates family members were invited to watch their student accept their high school diploma. Activity tied to LCAP Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>12/16/25 - Holiday Blues workshop - The Desert Sands counseling team conducted a workshop designed to equip students with strategies for navigating the holiday season in a positive and healthy manner. Recognizing that this time of year can present increased stress for students and their families, the workshop focused on building coping skills and promoting overall well-being. Activity tied to LCAP Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>1/8/26 - Student Resume workshop - Designated Desert Sands staff facilitated a resume writing workshop open to all interested students. During the session, students received guidance on developing effective resumes and were introduced to strategies for submitting applications to pursue employment opportunities. This workshop supported students in building essential college and career readiness skills. Activity tied to LCAP Goal 2 - Students will Gain Skills for College and Career-Readiness, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p> <p>3/5/26 - Open House - Desert Sands hosted an Open House event where students and their families could meet teachers, administrators, and school staff while gaining an overview of the programs and services offered by the school. This opportunity supported relationship-building and increased awareness of available academic and support resources. Community partners were also present,</p>

Educational Partner(s)	Process for Engagement
	<p>providing students and families with opportunities to connect with external organizations and access additional services that support student success and well-being. Activity tied to LCAP Goal 1 - Increase Academic Progress, Goal 2 - Students will Gain Skills for College and Career-Readiness, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p>
SELPA/Special Education Local Plan Area	<ul style="list-style-type: none"> <li>• Our SELPA Compliance Officer vetted our LCAP this year and stated that no changes were required.</li> <li>• The EI Dorado Charter SELPA participates and provides guidance in the CDE’s Special Education Monitoring Processes.</li> <li>• The EI Dorado Charter SELPA provides program and technical support by the Program Specialist and/or other SELPA team members.</li> <li>• Dropout (and Graduation), post-secondary outcomes data for special education students are reviewed in a collaborative process with the EI Dorado Charter SELPA.</li> <li>• Guidance for developing and monitoring transition plans for students with disabilities is regularly offered and available from the EI Dorado Charter SELPA.</li> <li>• Classified and Certificated Staff training related to special education students is provided by the EI Dorado Charter SELPA as needed and requested.</li> <li>• The EI Dorado Charter SELPA requests the participation of parents of students with disabilities in the SELPA Community Advisory Committee (CAC).</li> <li>• The SELPA Program Specialists were provided a copy of the LCAP for consultation on the alignment of LCAP activities with the annual assurances</li> </ul>

Agenda items tied to LCAP Goal 1 - Increase Academic Progress, Goal 2 - Students will Gain Skills for College and Career-Readiness, Goal 3 - Increase Student Retention and Goal 4 - Increase Stakeholder Engagement.</p>
Public Comment	<p>5-5-26 through 5-22-26, the public comment period provided parents and members of the public the opportunity to submit comments regarding specific actions and expenditures proposed in the 2026-2027 LCAP.</p>

Educational Partner(s)	Process for Engagement
Public Hearing	6-4-26 The meeting provided the public a period of time to come forward with any comments they might have about the LCAP, prior to its adoption by the charter school board.
LCAP Adoption by the Governing Board	6-4-26 The governing board adopted the 2026-2027 Local Control and Accountability Plan, which included the Budget Overview for Parents and the Comprehensive Support and Improvement Plan.
Budget Adoption and Local Indicator Report	6-4-26 The governing board adopted the 2026-2027 Budget, and they were presented with the Local Indicators Report.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The 2026-2027 LCAP was developed through a comprehensive and collaborative educational partner engagement process. The identified goals, actions, and allocation of LCFF resources were informed by ongoing consultation with community members and educational partners to ensure alignment with student needs, as determined by required metrics, local indicators, and stakeholder feedback. Revisions and enhancements to the 2026–2027 LCAP reflect insights gathered through this engagement process. The following summarizes key educational partner feedback that informed the development of the plan.

**Parent Feedback:** Desert Sands was able to receive valuable feedback from parents during the PAC and ELAC meetings, Parent Teacher Conferences, the Annual Survey and during events held by the school. This includes parents of students with disabilities, EL students, foster youth and homeless students. As reflected in the annual survey results, parents reported 100% positive responses across several key areas, including school safety, sense of connectedness, supportive and caring staff, encouragement on attendance, and receiving a quality education. These results indicate a strong school climate and high levels of family satisfaction with the support and communication provided by the school, demonstrating that Desert Sands's LCAP goals and actions are being implemented effectively. The lowest-rated item indicated in the annual survey is that 90% of parents reported their child is utilizing tutoring services. While some students may not require additional academic support, this area has been identified as an opportunity for growth. Given Desert Sands's designation for Comprehensive Support and Improvement (CSI), site leadership has implemented targeted strategies to increase student participation in tutoring and intervention services. These efforts are intended to ensure that all students who would benefit from additional support are identified and provided with appropriate academic interventions. During a recent event hosted by Desert Sands, a majority of parents expressed satisfaction with the school, indicating a positive perception of the programs and supports in place. This feedback suggests that Desert Sands's ongoing actions and adjustments are effectively meeting the needs of students and their families.

**Student Feedback:** Desert Sands was able to receive valuable feedback from students during PAC and ELAC meetings, Parent Teacher Conferences, teacher appointments, the Annual Survey and during events held by the school. Student feedback indicates a high level of satisfaction with the academic expectations established by teachers, the support provided by staff, and the academic rigor of the coursework. These results suggest that the school's LCAP goals and actions are being implemented effectively and are positively supporting student engagement and achievement. Student feedback also identified relationship-building between students and staff as an area for continued growth and improvement. In response, site leadership will prioritize strategies designed to strengthen staff-student connections through increased engagement opportunities, relationship-building activities, and professional development focused on student-centered practices.

Desert Sands will leverage its LCAP goals, actions, and associated funding to support the implementation of these strategies and enhance school connectedness for all students.

**Staff Feedback:** Desert Sands was able to receive valuable feedback from teachers during professional developments, meetings, the annual survey and during events held by the school. Staff feedback indicates a high level of satisfaction with the school's progress in student achievement and attendance, as well as with the range of supports and services available to meet student needs. This feedback suggests that the LCAP goals and actions are being implemented effectively and are positively impacting student outcomes. An important metric noted in the annual survey is that Desert Sands saw a 17 percentage point increase in staff reporting that the school site is safe. This improvement reflects a targeted focus by site leadership on strengthening school safety and overall campus climate during the current year. Feedback identified for improvement in the upcoming year indicates a need for leadership to strengthen communication systems to ensure information is conveyed clearly and effectively to staff. In addition, site leadership will prioritize efforts to build stronger, more collaborative relationships with staff in order to enhance overall school culture and organizational effectiveness. Finally, Desert Sands will prioritize the continued refinement and strengthening of its student intervention systems to ensure timely, targeted, and effective support for students in need of additional academic or behavioral assistance. Desert Sands will leverage its LCAP goals, actions, and associated funding to support professional development, leadership coaching, and systems improvement efforts designed to address these identified needs.

**Administration Feedback:** Throughout principal meetings, site administrators regularly analyzed student and program performance data, exchanged effective practices, addressed operational and instructional challenges, planned for the rollout of new initiatives, and engaged in long-term strategic planning. Principals indicated that the current LCAP goals and actions effectively support ongoing school improvement efforts. Administrators also raised concerns regarding declining enrollment, the current effectiveness of retention procedures, and communication gaps between regional leadership and site teams. In response, the Area Superintendent and regional directors are working collaboratively to strengthen communication structures and refine enrollment and retention systems.

**School Board Feedback:** Board members indicated appreciation for the reports and updates presented by the Area Superintendent, site leadership, and other staff. They noted positive progress in several key student outcome areas, including credit completion, attendance, and selected assessment measures. Board members also expressed value in receiving information regarding student and family engagement opportunities offered by the school. At the same time, the Board identified declining enrollment as an area of concern. In response, the Area Superintendent, regional directors and site leadership are collaborating to develop and implement targeted recruitment and outreach strategies designed to increase enrollment and improve student retention.

**Public Feedback:** During board meetings time was set aside for public feedback. To date there has not been any public feedback given.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	<p>Increase Academic Progress:</p> <p>This is a focus goal for increasing academic progress for all students, especially our English Language learners, low-income and foster youth, who struggled during the previous year. In the next three years, we will have mitigated the negative impact learning loss had on our students, and we will see improvement in our NWEA, EL reclassification, credit completion, and graduation rates.</p>	Focus Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)

An explanation of why the LEA has developed this goal.

As a result of our CSI and our analysis on key state and local data, we determined the need for a focus goal on academic performance for all our unduplicated students. This new goal specifically addresses low-key metrics such as the English Learner reclassification rate, credit completion, and graduation for our student groups. We looked at our student group data, which reveal performance gaps between the "All" student group, and the unduplicated students. Our students also take the NWEA MAP assessment, and we measure academic growth from year to year in this way. This year, performance gaps among student groups were also revealed, using that assessment. We understand the gaps that need to be closed for our students, and this focus goal was carefully designed to support their academic needs with targeted interventions and tutoring.

We sought the consultation of our educational partners, and involved them in the LCAP process, which we believe promotes positive engagement, buy-in and trust. We know that additional tutoring, interventions, and counseling support will help address the learning loss over the next few years.

## Measuring and Reporting Results

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Desert Sands Charter High School (DS) uses the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal One supported the progress in meeting the following goal: Increase academic progress.

Action 1.1: English Learners support staff, interventions, and materials.

Implementation Status: 4 - Full Implementation

Desert Sands ensures that English Learner (EL) students are supported through access to bilingual instructional and support staff, including teachers, paraprofessionals, tutors, counselors, and operations personnel. This comprehensive approach allows the school to address both academic needs and facilitate effective communication with students and their families. Instruction for EL students is guided by a structured, specialized curriculum that informs daily lesson planning and promotes language development. In addition, Desert Sands continues to invest

in supplemental instructional materials, including intervention resources and technology-based programs, to further support language acquisition and academic progress. There were no substantive differences between the planned actions and their implementation.

Actions 1.2: All academic interventions and program materials.

Implementation Status: 4 - Full Implementation

Desert Sands provides targeted academic support through Small Group Instruction (SGI) courses in core subject areas, along with dedicated math and English intervention classes designed to accelerate student progress toward grade-level standards. The intervention curriculum is intentionally selected to address learning gaps and support student achievement. To enhance instructional effectiveness, Desert Sands has invested in additional resources, including technology and supplemental materials that support differentiated instruction. Classroom teachers are further supported by tutors and paraprofessionals who provide additional assistance and reinforce learning. There were no substantive differences between the planned actions and actual implementation.

Action 1.3: Tutoring and supports for students.

Implementation Status: 4 - Full Implementation

In alignment with the Comprehensive Support and Improvement (CSI) Plan, Desert Sands has prioritized increasing student participation in tutoring as a key strategy to improve academic outcomes. While participation rates have varied throughout the year, local data indicates that students who participate in tutoring earn an average of 0.84 additional credits per learning period compared to those who do not, demonstrating a positive impact on credit attainment and progress toward graduation. Based on these findings, Desert Sands will continue to expand and promote tutoring participation, with an intentional focus on priority student groups, including English Learners, students with disabilities, and foster youth. There were no substantive differences between the planned actions and actual implementation.

Action 1.4: Counseling students towards graduation and materials.

Implementation Status: 4 - Full Implementation

Desert Sands provides a comprehensive system of student support through a multidisciplinary team that includes five counselors, three social workers, and a psychologist. This team collaborates closely with supervising teachers to address students' social-emotional and physical needs, monitor credit completion, support on-time graduation, and guide postsecondary planning. During the school year, targeted supports have been prioritized for 9th-grade and 12th-grade students. Ninth-grade students receive additional monitoring and guidance to ensure they are on track for four-year graduation, while 12th-grade students are supported in developing and finalizing postsecondary plans prior to completing graduation requirements. There were no substantive differences between the planned actions and actual implementation.

Action 1.5: Student activities that increase learning efforts.

Implementation Status: 4 - Full Implementation

Desert Sands implements a wide range of school-wide activities and events designed to promote student engagement, strengthen school connectedness, and support academic motivation. These opportunities include Back-to-School Night, Open House, awards ceremonies, Parent-Teacher Conferences, and additional on-campus events such as holiday celebrations. The school also provides experiential learning opportunities through educational trips both within the United States and internationally, enhancing students' academic experiences and global awareness. Senior students are recognized through annual events including graduation ceremonies and Grad Night, celebrating their accomplishments and successful completion of high school. Additionally, students have access to a variety of on-campus workshops throughout the year that support academic achievement, college and career readiness, and social-emotional development. There were no substantive differences between the planned actions and actual implementation.

Action 1.6: Teachers and staff are qualified and appropriately assigned.

Implementation Status: 4 - Full Implementation

To ensure high-quality instruction, Desert Sands prioritizes the recruitment and retention of appropriately credentialed teachers and regularly reviews staff assignments to maintain compliance and prevent misassignments. Newly hired teachers participate in a structured onboarding process that introduces instructional expectations and school systems, while ongoing professional development and support are provided throughout the year to strengthen instructional practice and staff capacity. There were no substantive differences between the planned actions and actual implementation.

Action 1.7: Professional Development for English Learners.

Implementation Status: 4 - Full Implementation

To strengthen support for English Learners (EL), Desert Sands is investing in targeted professional learning, including sending select staff members to the TESOL conference to deepen instructional practices and strategies that support language development. In addition, all staff are trained in research-based instructional approaches to support EL students' access to grade-level content. Teachers, tutors, and paraprofessionals consistently implement SDAIE (Specially Designed Academic Instruction in English) strategies to promote language acquisition and academic success. There were no substantive differences between the planned actions and actual implementation.

Action 1.8: LREBG - Intervention programs and support personnel to support students

Implementation Status: 3 - Initial Implementation (edit this as needed)

Desert Sands has been allocated LREBG funds and is currently in the early stages of planning for implementation. Site leadership, in collaboration with regional support personnel, has reviewed student performance data and conducted a needs assessment to identify priority areas for support. Planned use of these funds includes expanding professional learning for staff, strengthening instructional delivery and student engagement, and increasing access to academic supports such as tutoring and small group instruction. Targeted efforts will focus on addressing learning gaps for English Learners (EL), Long-Term English Learners (LTEL), foster youth, and low-income students. Additionally, the school will enhance social-emotional supports to promote student engagement, well-being, and progress toward on-time graduation.

Overall Successes: Desert Sands was able to implement the actions in this goal and there was no substantive difference in planned actions and actual implementation of these actions. Desert Sands had a tremendous year and saw growth in credit completion, their DASS 1 year graduation rate, English Learner reclassification and on ELPI, the math quantile score, and the Lexile score.

Overall Challenges: Desert Sands' mathematics performance remains below the state standard, and improving student outcomes in mathematics has been identified as a priority focus area for next school year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards English Language Learners, low-income, and foster youth students. Desert Sands' was able to meet their budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF and LREBG funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Desert Sands Charter High School used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal one helped make progress towards the LEA's goal: To support the progress in meeting the goal to improve student academic achievement.

Action 1.1: English Learners support staff, interventions, and materials.

Effectiveness of Action: 3 - Effective

Metrics: English Learner Progress Indicator and Reclassification Rate

Analysis Statement: As reflected in the metrics above, Desert Sands' English Learner Progress Indicator (ELPI) on the California School Dashboard is 46.2%, maintaining a Green performance level and representing a 4.8 percentage point increase from the prior year. The reclassification rate also showed significant improvement, rising to 26%, a 16 percentage point increase. Local data further indicates substantial academic gains for English Learner (EL) students, including an increase of 2.45 credits earned compared to the previous year. In addition, Math quantile scores increased by 76.50 points and Lexile scores improved by 95.48 points, reflecting growth in both mathematics and literacy. These data points demonstrate strong progress in both language acquisition and academic achievement for EL students. Desert Sands leadership is encouraged by these outcomes and will continue to build on current practices and supports to sustain and accelerate student growth in the coming year.

Action 1.2: All academic interventions and program materials.

Effectiveness of Action: 3 - Effective

Metric: NWEA MAP

Analysis Statement: As reflected in the metrics above, Desert Sands demonstrated continued growth in overall NWEA performance during the current year. Student Math quantile scores increased by 13.10 points, and Lexile scores improved by 12.35 points compared to the prior year. Through the Differentiated Assistance process, the Desert Sands Improvement Team collaborated with county partners to analyze student data and identify areas of need. The implementation of targeted strategies—including Small Group Instruction (SGI), expanded tutoring opportunities, and an emphasis on completion of core academic credits—has contributed to these positive outcomes. Desert Sands leadership will continue to refine and expand these supports to sustain and further accelerate student growth in mathematics and literacy in the coming year.

Action 1.3: Tutoring and supports for students.

Effectiveness of Action: 3 - Effective

Metric: Credit Completion Rate

Analysis Statement: As indicated in the metrics above, Desert Sands' credit completion rate increased by 0.89 compared to the prior year, meeting and exceeding the LCAP goal of 4.0 credits per learning period with an average of 4.15 credits earned. This reflects continued progress in supporting students' advancement toward graduation. This improvement is attributed to a coordinated, schoolwide effort to prioritize credit completion, supported by consistent monitoring of student progress and high expectations for performance. In particular, Desert Sands has emphasized targeted onboarding and support for 9th-grade students to help establish strong academic habits early in their high school experience. Additionally, strategic academic planning and ongoing guidance have contributed to increased credit completion rates. These combined efforts have supported positive outcomes and will continue to be refined to sustain and build upon this progress

Action 1.4: Counseling students towards graduation and materials.

Effectiveness of Action: 3 - Effective

Metric: DASS 1-Year Graduation Rate

Analysis Statement: As reflected in the metrics above, Desert Sands' one-year DASS graduation rate increased to 92.4%, representing a 14.9 percentage point gain. This exceeds the three-year LCAP goal of 86% and marks the second consecutive year that Desert Sands has surpassed this target. Desert Sands attributes this continued success to a strong culture of high expectations established by the teachers, along with comprehensive, targeted support for senior students. Ongoing guidance from counselors, social workers, and the school psychologist has played a key role in ensuring students remain on track to graduate. These coordinated efforts have contributed to sustained improvements in graduation outcomes and will remain a priority to support continued student success.

Action 1.5: Student activities that increase learning efforts.

Effectiveness of Action: 3 - Effective

Metric: Credit Completion Rate

Analysis Statement: As reflected in the metrics above, Desert Sands' credit completion rate increased by 0.89 compared to the prior year, exceeding the LCAP goal of 4.0 credits per learning period with an average of 4.15 credits earned. This demonstrates continued progress in supporting students toward timely graduation. This outcome is the result of a focused, schoolwide effort to prioritize credit completion, supported by high expectations and consistent monitoring of student progress. In addition to maintaining a rigorous academic program, Desert Sands promotes student engagement and motivation through a variety of incentives and enrichment opportunities. These opportunities include both on-campus activities and experiential learning experiences, such as educational trips within the United States and internationally, which help reinforce student investment in their academic success.

Action 1.6: Teachers and staff are qualified and appropriately assigned.

Effectiveness of Action: 3 - Effective

Metric: Highly Qualified with Full Teaching Credential

Analysis Statement: As reflected in the metrics above, 100% of Desert Sands teachers are fully credentialed and appropriately assigned, demonstrating full compliance with state requirements and supporting the delivery of high-quality instruction. Desert Sands leadership recognizes that ensuring staff are properly credentialed and assigned within their areas of expertise is essential to promoting positive student outcomes. Current strategies related to recruitment, assignment monitoring, and staff support have proven effective and will continue to be implemented with fidelity. Through these efforts, Desert Sands remains committed to maintaining a highly qualified workforce to support student achievement.

Action 1.7: Professional Development for English Learners.

Effectiveness of Action: 3 - Effective

Metric: English Learner Progress Indicator

Analysis Statement: As indicated in the metrics above, Desert Sands' English Learner Progress Indicator (ELPI) on the California School Dashboard is 46.2%, maintaining a Green performance level and reflecting a 4.8 percentage point increase from the prior year. The reclassification rate also demonstrated notable growth, increasing to 26%, a gain of 16 percentage points. Local data further highlights strong academic progress among English Learner (EL) students, including an increase of 2.45 credits earned compared to the previous year. In addition, Math quantile scores increased by 76.50 points and Lexile scores improved by 95.48 points, indicating growth in both mathematics and literacy. These outcomes reflect the effectiveness of current instructional practices and supports for EL students. Desert Sands leadership will continue to build on this progress by expanding professional development opportunities for teachers and support staff serving English Learners to sustain and further accelerate student achievement.

Action 1.8: LREBG - Intervention programs and support personnel to support students

Effectiveness of Action: 2 - Somewhat Effective

Metric: 1.3 Reading Lexile and 1.4 Mathematics Quantile

Analysis Statement: As reflected in the metrics above, Desert Sands' average reading Lexile score for all students decreased by 14.57 points during the current year and remains below the three-year LCAP target of 1150. Similarly, the average math quantile score declined by 8.97 points and continues to fall short of the established goal of 900. Despite these declines, longitudinal data indicates overall improvement from the baseline year (two years prior), with gains observed across both metrics and among all student groups besides students with disabilities in reading. While progress has been made, current-year outcomes did not meet expectations. Desert Sands leadership has analyzed these fluctuations and will prioritize strategies focused on increasing student engagement, expanding targeted interventions, enhancing tutoring opportunities, and strengthening social-emotional supports to address learning gaps. These actions align with the allowable uses of LREBG funds, including learning recovery programs to increase academic proficiency, tutoring, and other evidence-based supports outlined within the grant.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 1.8: LREBG - Intervention programs and support personnel to support students

This action did not have the intended outcome based on the associated metrics as described in prompt 3. In response to identified declines in math quantile and reading Lexile scores, Desert Sands leadership has implemented targeted strategies to address areas of need and to strengthen student outcomes. Through a collaborative evaluation and needs assessment, opportunities were identified to strengthen the alignment between NWEA MAP results and student performance in English Language Arts and mathematics. Desert Sands recognizes the importance of providing comprehensive academic interventions and supports to address learning gaps, including the integration of social-emotional supports to ensure students remain engaged, supported, and on track for on-time graduation. Moving forward, planned adjustments include expanding professional development for staff, refining instructional strategies, increasing student engagement, and enhancing access to tutoring and Small Group Instruction (SGI). Targeted efforts will focus on closing achievement gaps for English Learners (EL), Long-Term English Learners (LTEL), foster youth (FY), and low-income (LI) students. Next steps include strengthening

systems for monitoring student participation in tutoring during each learning period and utilizing NWEA data to regularly assess student progress and inform instructional decisions.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Long-term English Learners (LTEL) and English Learners support staff, interventions, and materials	<p>Our ELD program follows the CA EL Roadmap for effective practices, and we provide additional support for ELs struggling with academic proficiency.</p> <ul style="list-style-type: none"> <li>• Additional oversight of the EL program with teams looking at student progress data.</li> <li>• EL Small Group Instruction (SGI).</li> <li>• Paraprofessionals in ELD SGI classes.</li> <li>• English learner tutors.</li> <li>• Individualized English Language Development Plan (IELDP).</li> <li>• Access to other effective intervention programs such as System 44.</li> </ul> <p>Upon reviewing our local and state assessment data broken down by subgroup data, we have identified several performance and outcome gaps and general programmatic/instructional needs for the English learner student population. Our English learner students show the most opportunity for continued academic improvement based on the most current state and local ELA and Math data as reflected in the metric tables. Based on a local needs assessment we have found that our English learner students need additional support and scaffolds to be successful. We will address this need by providing an EL Paraprofessional or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Students will receive individualized support based on their specific English proficiency level. We use an Individualized English Language Development Plan (IELDP) in collaboration with students and families. Implementing our Designated and Integrated English language development (ELD) is an integral part of our comprehensive program for every English learner in order to meet the linguistic and academic goals at their grade level as identified by their level of proficiency. EL’s participate in Newcomer</p>	\$290,956.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>programs, Structured English Immersion or English Language Mainstream, based on their capacity to successfully advance in their language acquisition and their academics. Support staff will provide specific language instruction through vocabulary and language development to support literacy skills and language acquisition. We anticipate the student performance on CAASPP Math and ELA, as well as on the English Learner annual growth assessment will reveal improved performance for these students. This action is designed to meet the needs most associated with English learner students. Using real time tracking, student language proficiency and academic progress will be monitored, and we expect that their ELPAC scores, as well as the reclassification rate, to increase as a result of the personalized academic support they will receive from qualified personnel.</p>		
1.2	All academic interventions and program materials	<p>Academic interventions will be provided for our English learners, LTELs, low-income and foster youth students struggling with academic proficiency which will help them improve their skills.</p> <p>This action will address the following reds on the CA Dashboard API:            ELA: All students, Hispanic, low-income            Math: All students, Hispanic, low-income</p> <p>Eligibility for Differentiated Assistance:            Hispanic: ELA, Math (Priority 4)            LI: ELA, Math, (Priority 4)</p> <p>Student groups related to eligibility for Differentiated Assistance have average initial NWEA MAP scores at the following grade level:            Reading:            LI: 984.75 = 7th grade level            Math:            LI: 739.20 = 5th grade level</p> <p>To meet these needs, the LEA will provide the following:</p> <ul style="list-style-type: none"> <li>• Increase monitoring of ELA and math courses assigned.</li> <li>• Emphasis on completing ELA and math credits.</li> </ul>	\$1,585,685.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>• Professional development for targeted instruction in small group settings.</li> <li>• Collaborate around the effectiveness of intervention courses for ELA and math by increasing data tracking among all teachers.</li> </ul> <p>To address our CSI status and improve our graduation rate, we will increase our tutoring support. This action is expected to reduce resource inequities among our lowest student groups' graduation rates and credit completion rates. As demonstrated in the Identified Needs and Metric section, graduation rates are among the LI, FY &amp; EL student groups. To address the achievement gaps, tutors will provide support for our English Learners, low-income and foster youth students who are credit deficient. This will help them complete their assignments and increase the rate at which they finish their courses. Local and virtual tutors are actively engaged in reaching out to our English Learners, low-income, and foster youth students. Tutors deliver a critical level of support that we have seen be successful in helping address academic gaps effectively and improve student progress towards graduation. We expect that these actions will increase graduation rates for our English Learners, low-income. and foster youth student groups. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our credit completion rate to increase each year. To address our CSI status and improve our graduation rate, we will increase our academic interventions for 9th graders, 12th graders, EL students and other student groups not on track to graduate on time. As demonstrated in the Identified Needs and Metrics sections, State and local assessments in ELA and Math indicate that some of our lowest performing students are the English Learners, low-income and foster youth student groups when compared to the All student group. To address this gap, academic interventions will be provided for our English Learners, low-income and foster youth students struggling with academic proficiency which will help them improve their skills. Targeted instruction in small group settings or other effective intervention programs, such as Read 180 and Math 180 will accelerate their academic abilities. Students who participate in academic interventions will improve their learning gaps as shown in their NWEA scores. We expect that these actions will be effective at increasing students' mathematics and reading assessments. However, because we expect that all students showing low proficiency will benefit, this action is</p>		

Action #	Title	Description	Total Funds	Contributing
		provided on an LEA-wide basis. We expect our NWEA scores to increase each year.		
1.3	Tutoring and supports for students	<p>Tutors will be provided for our English learners, LTEL, low-income, and foster youth students who need additional support in completing their coursework and earning credits toward graduation. This action supports our Comprehensive Support and Improvement plan,</p> <ul style="list-style-type: none"> <li>• Tutors are available for additional support</li> <li>• Intensive tutoring for credit completion</li> <li>• Improve tutor-student relationship to increase participation.</li> <li>• Access to tutors is both virtual and in-person</li> </ul>	\$612,404.00	Yes
1.4	Counseling students towards graduation and materials	<p>Counselors will be principally directed to promote high expectations and provide guidance toward graduation. Counselors will connect frequently and as needed with high-needs students, to help meet social-emotional needs. Additionally, we will do the following:</p> <ul style="list-style-type: none"> <li>• Provide additional support for potential graduates starting at the beginning of the year.</li> <li>• Counselors will meet more regularly with future grads.</li> <li>• Monitor the progress of potential grads and collaborate around the results.</li> <li>• Provide additional training and support to identify students' socio-emotional needs, incorporate counseling services to support students' well-being, and create a positive learning environment.</li> <li>• Provide additional training on the Multi-Tiered, Multi-Domain Systems of Support (MTMDSS). MTMDSS provides tiered levels of school counseling instruction and data-driven intervention services that help address the needs of students in the areas of academic, college/career, and social/emotional development.</li> <li>• Counselors help address obstacles to graduation.</li> <li>• Additional counselors reduce the counselor-to-student ratio and allow for equity and improved access to resources.</li> </ul> <p>To address our CSI status and improve our graduation rate, we will increase our counseling support of 9th graders, 12th graders, EL students</p>	\$901,793.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>and other student groups not on track to graduate on time. Some of our lowest graduation rates are among the English Learners, low-income and foster youth student groups when compared to the All student group. This is demonstrated in the Identified Needs and Metrics sections. To address these gaps, counselors will provide additional support to English Learners, low-income and foster youth students. They will promote high expectations and provide guidance towards graduation. Counselors will connect with students, help meet social-emotional needs, and guide students to achieve their graduation goals. We expect to continue providing counselors, who help address obstacles to graduation that English Learners, low-income and foster youth students have; however, because we expect that all students could benefit, action is provided on an LEA-wide basis. This action has been effective for many students in helping them successfully graduate and will increase graduation rates for our student groups at the rate each year.</p>		
1.5	Student activities that increase learning efforts	<p>Students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will also do the following:</p> <ul style="list-style-type: none"> <li>• Improve the relationships between staff and students to increase school participation and engagement.</li> <li>• The school will acknowledge student achievement and celebrate student successes to get buy-in.</li> <li>• The school will also boost student morale by increasing student-led events and activities creating a positive learning environment.</li> <li>• Group activities that celebrate progress</li> <li>• Enrichment experiences and field trips.</li> </ul> <p>As demonstrated in the Identified Needs and Metrics sections, the English Learners, low-income and foster youth students are often underperforming in their capacity for credit completion. The expected average is 4.0. They often exhibit low motivation to complete their assignments. To address this need, students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. This includes but is not limited to celebrations, field trips and enrichment</p>	\$98,816.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>experiences. We have witnessed how these actions can inspire students to continue to be productive and strive to accelerate their learning. We expect that these actions will have a positive impact on work completion rates. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis. We anticipate and increase up to 4 credits per learning period.</p>		
1.6	Teachers and staff are qualified and appropriately assigned	<p>All students will have access to teachers who are fully credentialed and appropriately assigned to teach in their subject area of competence. Any teacher mis-assignments will be monitored and rectified, so that students are served according to the legal requirements.</p> <p>All students with disabilities will be provided a free, appropriate, public education, including all required designated instructional services outlined in their Individualized Education Plan as well as required by the education code and related regulations.</p>	\$8,744,077.00	No
1.7	Professional Development to Support English Learners and LTELs	<p>Our ELD program follows the CA English Learner Roadmap for effective practices, and we provide professional development for staff to help serve English learners and LTELs with their language acquisition. We will do the following:</p> <ul style="list-style-type: none"> <li>• Increased monitoring of progress for our EL students and collaboration around the results.</li> <li>• Professional development for implementing the EL Tool Kit.</li> <li>• Professional development for effective EL strategies, such as SIOP.</li> <li>• Paraprofessionals in ELD SGI classes trained.</li> <li>• EL Tutors trained.</li> <li>• Training in Individualized English Language Development Plan (IELDP).</li> <li>• Professional learning communities, workshops, and conferences for staff.</li> </ul> <p>In order to stay above the state average for our English Language learners' reclassification rate we will need additional support from faculty and support staff who employ effective strategies that will help improve</p>	\$3,500.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>students' ELPAC scores. To address this need, they will be served by trained EL Paraprofessionals or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Trainings could include, but are not limited to developing an EL Tool Kit, implementing effective EL strategies using SIOP (Sheltered Instruction Observational Protocol), and scaffolding strategies such as modeling, building schema, contextualization, and others. Additionally, workshops, conferences and professional learning communities provide information that will build the capacity of faculty and staff to increase student performance. We expect that our English Learners' ELPAC scores, as well as the reclassification rate, will increase as a result of the personalized academic support and attention they will receive from qualified personnel.</p>		
1.8	LREBG - Intervention programs and support personnel to support students	<p>We will support our students who struggle with academic performance by providing intervention programs and support personnel to address their learning gaps. LREBG funding is directed towards academic and socioemotional interventions for all students as needed. The needs assessment substantiated findings from the 2024 Dashboard related to low academic performance in mathematics and English Language Arts. A review of state and local data, such as NWEA Map results, indicates that our students need support in the areas of English Language Arts and mathematics. This action directly addresses the need to engage students with comprehensive interventions and academic support in order to improve their learning gaps. This action aligns with the allowable uses of LREBG funds in the areas of learning recovery programs to increase proficiency, tutoring, as well as others listed in the grant. Studies have shown that students who participate in tutoring and other socioemotional supports are more likely to realize gains in their academic performance. Additionally, research shows that students who engage in mathematics intensive tutoring demonstrate an increase in math scores by 0.19 to 0.31 standard deviations. We will monitor our students' participation in tutoring each learning period and use NWEA scores to assess performance.</p>	\$170,928.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	<p>Students Will Gain Skills for College and Career-Readiness:</p> <p>This is a broad goal for helping students gain skills for college and career-readiness for all students, including low-income, English learners and foster youth students.</p>	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 2: State Standards (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 7: Course Access (Conditions of Learning)</p> <p>Priority 8: Other Pupil Outcomes (Pupil Outcomes)</p>
--

An explanation of why the LEA has developed this goal.

This goal was developed with the special needs and interests of our unique student population and our CSI status. Most of our students choose our independent study program to change their story and increase their viability after graduation. We support their interests in pursuing a career through our CTE course work and partnerships. Everyone receives state standards aligned curriculum and we encourage students who are college bound to meet the A-G requirements. Year after year, we expect these metrics to show improvement for all of our student groups.

## Measuring and Reporting Results

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Desert Sands Charter High School used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics. Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Two supported the progress in meeting the following goal: Students Will Gain Skills for College and Career-Readiness.

Action 2.1: Career and college-readiness for English Learners, low income, and foster youth students.

Implementation Status: 4 - Full Implementation

Desert Sands provides all students with access to a range of college and career readiness opportunities, including Dual Enrollment courses such as College Success, Child Development, Psychology, and Career Exploration. In addition, students may enroll in Career Technical Education (CTE) pathways, including courses in Graphic Design and Child Development, as well as a Professional Skills course. Through

participation in CTE programs, students also have the opportunity to earn industry-recognized certifications that support postsecondary and career goals. There were no substantive differences between the planned action and actual implementation.

Action 2.2: Professional development addressing English Learners, low income, and foster youth students.

Implementation Status: 4 - Full Implementation

Desert Sands leadership facilitated multiple professional development sessions throughout the year focused on strengthening staff capacity to support English Learners, foster youth, and socioeconomically disadvantaged students in improving academic achievement. These trainings contributed to measurable gains, including increases in overall credit completion as well as improved outcomes for English Learners and other student groups on key assessments. In addition, site leadership continues to engage in ongoing leadership development and coaching to enhance instructional leadership and program implementation. There were no substantive differences between the planned action and actual implementation.

Action 2.3: Technology Access and Support.

Implementation Status: 4 - Full Implementation

Desert Sands ensures equitable access to technology for all students by providing on-campus access to computers and offering take-home devices to support completion of coursework outside of school. This approach promotes continuity of learning and reduces barriers related to technology access. The school also provides a range of assistive and instructional technologies to support diverse learner needs, including targeted resources for English Learners, students with disabilities, and students performing below grade level. In addition, all students are issued school email accounts to facilitate communication with teachers and enable submission of assignments. There were no substantive differences between the planned action and actual implementation.

Action 2.4: Support for Standards-based Curriculum and Instruction

Implementation Status: 4 - Full Implementation

Desert Sands maintains a cycle of continuous improvement for instructional materials by regularly reviewing, updating, and adopting curriculum aligned to student needs and state standards. This includes the acquisition of supporting resources such as instructional materials, texts, and technology to enhance implementation. Teachers are provided opportunities to pilot new curriculum, allowing for feedback and data informed decision making prior to broader adoption. To ensure effective implementation, staff participate in ongoing professional development and training focused on curriculum use and evidence-based instructional practices. Additionally, selected staff attend conferences to further strengthen instructional capacity. There were no substantive differences between the planned action and actual implementation.

Action 2.5: Educational materials for an effective program.

Implementation Status: 4 - Full Implementation

Regional support personnel collaborate regularly with site leadership and instructional staff to ensure access to appropriate, standards-aligned educational materials that support effective learning. Ongoing trainings are provided to build staff capacity and ensure that instructional materials are utilized to maximize student learning outcomes. Desert Sands maintains a continuous cycle of curriculum review and refinement, including the adoption, modification, and purchase of instructional programs and accompanying resources such as texts, materials, and technology. There were no substantive differences between the planned action and actual implementation.

Action 2.6: Safe and Secure Facilities

Implementation Status: 4 - Full Implementation

Desert Sands maintains safe and well-maintained facilities through regular use of the Facility Inspection Tool (FIT), with inspection results consistently reflecting high marks. All staff receive ongoing training in current safety and security protocols to ensure a secure learning environment. Site leadership conducts routine safety inspections to monitor campus conditions and identify any areas of need. When issues are identified, they are addressed promptly to maintain a safe and orderly school environment. There were no substantive differences between the planned action and actual implementation.

Overall Successes: Desert Sands demonstrated measurable progress in the college readiness indicators, increasing the percentage of students completing A–G course requirements compared to the prior year and meeting the three-year LCAP target of 2%. In addition, the school achieved overall gains in student performance on statewide assessments, with English Language Arts (ELA) scores increasing by 9 percentage points and mathematics scores increasing by 4 percentage points year over year. These results reflect continued improvement in both academic achievement and college readiness outcomes.

Overall Challenges: Desert Sands experienced a decline in performance levels on the California School Dashboard in both English Language Arts (ELA) and mathematics. ELA performance decreased by 2 points, resulting in a shift from Yellow to Orange status, while mathematics scores declined by 6.5 points, leading to a decrease to Red status. In response to these outcomes, Desert Sands leadership has conducted a data review and initiated targeted planning to address identified areas of need. Action steps are currently being implemented to strengthen instructional practices and improve student outcomes in both ELA and mathematics for the upcoming year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards Desert Sands's English Language Learners, low-income, and foster youth students. Desert Sands able to meet their budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Desert Sands Charter High School used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Two supported the progress in meeting the following goal: Students Will Gain Skills for College and Career-Readiness.

Action 2.1: Career and college-readiness for English Learners, low income, and foster youth students.

Effectiveness of Action: 2 - Somewhat Effective

Metrics: Work Readiness and CTE courses, CTE and A-G.

Analysis Statement: As reflected in the metrics above, Desert Sands' College and Career Readiness data indicates that 112 students enrolled in a Career Technical Education (CTE) course during the current year, representing a decrease from the prior year. Similarly, 124

students completed Professional Skills credits, also reflecting a decline in participation. In response, site leadership will focus on increasing awareness and access to these programs through enhanced outreach, promotion, and strategic scheduling to improve student enrollment and participation in the upcoming year. While the percentage of seniors completing A–G course requirements met the three-year LCAP goal, current outcomes remain below levels achieved two years prior, indicating an ongoing area for growth. Desert Sands leadership has conducted a comprehensive needs assessment using local data and stakeholder input to identify strategies to improve A–G completion rates. Planned actions include strengthening the focus on core credit completion, implementing targeted interventions, improving systems for monitoring course enrollment and credit attainment, and expanding a whole-student approach to support academic success. Through these efforts, Desert Sands aims to increase A–G completion while strengthening overall college and career readiness outcomes.

Action 2.2: Professional development addressing English Learners, low income and foster youth students.

Effectiveness of Action: 2 - Somewhat Effective

Metrics: CAASPP for English Language Arts and Math.

Analysis Statement: As reflected in the metrics above, Desert Sands experienced declines in both English Language Arts (ELA) and mathematics performance on the California School Dashboard. ELA scores decreased by 2 points, resulting in a shift to Orange status, while mathematics scores declined by 6.5 points, leading to a Red status. In response, Desert Sands leadership has conducted a data review and initiated targeted actions to address these areas of need. Current strategies include increasing academic expectations, ensuring appropriate placement in intervention supports, and more strategically aligning student course placement to address learning gaps. These actions are intended to strengthen instructional effectiveness and improve student outcomes in both ELA and mathematics in the upcoming school year

Action 2.3: Technology Access and Support.

Effectiveness of Action: 3 - Effective

Metric: 100% of students offered Chromebook and hotspot upon enrollment.

Analysis Statement: Desert Sands ensures that all students have access to technology and internet connectivity while on campus and provides additional supports, including take-home laptops and internet hotspots, to support learning beyond the school day. This approach promotes equitable access and helps ensure continuity of instruction. The school also offers a range of assistive and instructional technology resources to support diverse learners, including English Learners, students with disabilities, and students performing below grade level. Based on feedback from site leadership and instructional staff, this action has been effective in supporting student access and engagement. Desert Sands will continue to monitor implementation and maintain access to technology resources for all students in the upcoming school year.

Action 2.4: Support for Standards-based Curriculum and Instruction.

Effectiveness of Action: 3 - Effective

Metric: CDE Standards Implementation Rubric.

Analysis Statement: As reflected in the metrics above, Desert Sands maintained 100% access to instructional materials aligned with state standards. Implementation of state academic standards also improved, with the school reporting a rating of 4.63 out of 5, indicating continued progress in instructional alignment and delivery. Desert Sands engages in an ongoing cycle of curriculum review and refinement, including the adoption, revision, and purchase of instructional programs and supporting resources such as texts, materials, and technology. To ensure effective implementation, instructional staff participate in continuous professional development focused on curriculum use and

evidence-based teaching practices. Through this commitment to continuous improvement, Desert Sands aims to sustain high-quality curriculum and instructional practices that support positive student outcomes.

Action 2.5: Educational materials for an effective program.

Effectiveness of Action: 3 - Effective

Metric: Regional Monitoring by Instructional Specialists

Analysis Statement: Desert Sands ensures that all sites are equipped with high-quality instructional materials, which are regularly reviewed and monitored by site staff and regional instructional specialists to ensure alignment with state standards, student needs and program goals. An annual inventory process is conducted to evaluate the relevance, effectiveness, and alignment of instructional materials. Based on this review, materials are updated or newly acquired as needed to support student learning. When new or revised materials are introduced, targeted professional development is provided by regional specialists, site leadership, or content experts to support effective implementation. Educational partners, including staff and site leadership, have identified the continuation of these practices as essential to maintaining strong instructional programs.

Action 2.6: Safe and Secure Facilities.

Effectiveness of Action: 3 - Effective

Metric: Facilities Inspection Tool (FIT)

Analysis Statement: Desert Sands' implementation of the Facility Inspection Tool (FIT) resulted in exemplary ratings across all inspected areas, indicating that facilities are well-maintained and supportive of student learning. Site leadership also ensures consistent adherence to established safety plans and protocols. Annual survey data indicates that a majority of students and staff report feeling safe while on campus, reflecting a positive school climate. Educational partner feedback, including input from staff and families, emphasizes the importance of maintaining safe and secure learning environments. Based on this feedback, Desert Sands will continue to implement and monitor this action in the upcoming school year to ensure a safe and supportive campus for all students.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 2.1: Career and college-readiness for English Learners, low income, and foster youth students.

This action did not fully achieve the intended outcomes based on the associated metrics described in Prompt 3. Through a collaborative evaluation and professional needs assessment, Desert Sands identified two primary factors contributing to the limited effectiveness of this action. First, there is a need to strengthen outreach and awareness efforts to increase student participation in CTE and Dual Enrollment opportunities. Second, Desert Sands needs to improve systems for monitoring credit completion by reinforcing expectations that all students complete at least one English and one math credit during each learning period. In addition, teachers will increase monitoring of student work completion and assessment data to ensure timely identification of students in need of support and the assignment of appropriate interventions. These targeted adjustments are intended to improve implementation and strengthen student outcomes moving forward.

Action 2.2: Professional development addressing English Learners, low income and foster youth students.

This action did not fully achieve the desired outcomes based on the metrics outlined in Prompt 3. However, based on input from educational partners—including feedback from PAC/ELAC meetings, staff, and students—Desert Sands will continue implementation with targeted refinements. Following a comprehensive review and needs assessment, Desert Sands leadership will emphasize consistent expectations for

all students to strive to complete at least one English and one mathematics credit during each learning period. Systems for monitoring student work completion and assessment performance will be strengthened to support early identification of students requiring additional assistance. Students identified as needing support will be provided with appropriate interventions, including tutoring and other targeted services. Teachers will continue to uphold rigorous expectations and ensure that course placement and instructional supports are aligned to individual student needs. Through these strategic adjustments, Desert Sands aims to improve the effectiveness of this action and drive stronger student outcomes.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Career and college-readiness for English Learners, low income and foster youth students	<p>Students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will do the following:</p> <ul style="list-style-type: none"> <li>• Increase monitoring of course assignments for A-G, CTE, and dual enrollment.</li> <li>• Track credit completion of EL, LTEL, LI and FY students completing course assignments.</li> <li>• Track that 11th and 12th graders have access to college courses.</li> <li>• CTE programs and pathways offered.</li> <li>• Job training and placement as possible.</li> <li>• College and Career days as well as field trips.</li> </ul> <p>Some of our lowest career and college-readiness rates are among the English learners, LTELs, low-income, and foster youth student groups who are all below the state average of 18.7% for graduates completing a CTE pathway. They were also below the state average of 44.5% completing A-G courses. the state average for completing A-G and CTE was 11.1%. Our English learners, LTELs, low-income, and foster youth students, need to be prepared to pursue a career or attend a college. To address this need, and our CSI status, our students engage in career inventory, exploration and professional skills, in order to align their interests into either CTE or other secondary education. We take into consideration local employment opportunities and student interests to help guide students into coursework that is valuable. Support personnel, staff, partnerships and materials are essential to tailor and implement the curriculum for students. We have</p>	\$625,139.00	Yes

Action #	Title	Description	Total Funds	Contributing
		witnessed our students be successful in these programs. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on our college and career readiness rates for our students and we expect to increase each year for A-G and CTE.		
2.2	Professional development addressing English Learners, low income and foster youth students	<p>Students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will do the following:</p> <ul style="list-style-type: none"> <li>• Additional monitoring for courses assigned and PD to support teachers clarity on expectations.</li> <li>• Test prep for the CAASPP.</li> <li>• Regional trainings, workshops/seminars.</li> <li>• Best practices shared in PLC.</li> <li>• Outside conferences that have an impact on At-promise youth.</li> </ul> <p>As demonstrated in the Identified Needs and Metrics sections, the CAASPP results in the ELA, math and science assessments show that many of our lowest performing students are the English Learners, low-income and foster youth student groups when compared to the All student group. To address this issue, professional development for our teachers and staff will be essential to the progress our English Learners, low-income and foster youth students. Trainings, conferences, workshops, and professional learning communities provide information for our capacity to address our students' academic and social-emotional needs. We have seen a positive impact on our At-Promise students with additional staff training, such as trauma informed practices. We anticipate that with the increase in professional collaboration and learning, that state assessment results for our English Learners, low-income and foster youth will also increase. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on students CAASPP scores.</p>	\$71,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.3	Technology Access & Support	<p>All English Learners, LTELs, low-income, and foster youth students will have access to effective technology platforms and support programs. This is an ongoing effort to help them to access their curriculum and instructional support. We will do the following:</p> <ul style="list-style-type: none"> <li>• Upon enrollment provide every student with a computer.</li> <li>• Provide every student with a hotspot.</li> <li>• Provide students and teachers with tech support to ensure access to curriculum and instruction.</li> </ul> <p>To address our CSI status and improve our graduation rate, we will increase our implementation of and students' access to instructional supports, curriculum and effective technology. All English Learners, low-income and foster youth students will have 100% access to the curriculum and instructional supports. We know this involves access to effective technology platforms and support programs. This is an ongoing effort in helping them to access their curriculum and instructional supports. We have seen the success with teachers and staff continually supporting students' access to technology, and we will continue to provide training and materials to close any gaps. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on our students, by sustaining 100% access to their educational program.</p>	\$440,909.00	Yes
2.4	Support for Standards-based Curriculum and Instruction	<p>All English Learners, LTELs, low-income and foster youth students will have access to high-quality standards-aligned curriculum and instruction that is continually improving. We will do the following:</p> <ul style="list-style-type: none"> <li>• Site leadership will advocate for curriculum feedback and track the updates being made.</li> <li>• Regional leadership for curriculum and instruction will participate in local curriculum review.</li> <li>• Engage in dialogue in collaborative groups.</li> <li>• Provide input on aligning standards to instructional practices.</li> <li>• Analyze data results to develop and improve practices and processes.</li> </ul> <p>All English Learners, low-income and foster youth students will have access to high quality standards aligned curriculum and instruction that is</p>	\$792,577.00	Yes

Action #	Title	Description	Total Funds	Contributing
		continually improving. The implementation score for our standards- based curriculum is 4.09, based on the CDE Standards Implementation Rubric. To address this, regional and site personnel will continue to collaborate and develop a high quality, customized curriculum, and provide coaching to support implementation for the unique needs of our student groups. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on our educational program resulting in a score of 5.0 on the CDE rubric.		
<b>2.5</b>	Educational materials for an effective program	All students will have access to all materials to participate fully in enrolled courses. An effective education program relies on quality materials for all subject areas. We continue to purchase state adopted texts and update supplemental materials regularly, so that they meet our students' academic needs.	\$10,674,156.00	No
<b>2.6</b>	Safe and secure facilities	We provide learning facilities for our students that are safe and secure. We monitor our sites each year, using the Facility Inspection Tool (FIT).	\$2,165,274.00	No
<b>2.7</b>	Dual enrollment for students	College going rates among our English Learners, low-income and foster youth student groups tend to be low. To address this need, our English Learners, low-income and foster youth students need additional staff support to be prepared and supported when taking a college course. We will have an internal staff person, who monitors with our teachers, those students who are assigned to dual enrollment courses and need help to support their efforts. Costs for college courses, books, materials, field trips and extra hours for support personnel are just a few of the possible expenditures for this action. This could also include professional development for helping our At-Promise youth be successful in these challenging courses. We have witnessed many of our students be successful when there is tutoring and other support from adults. We know that these actions will have a positive impact on English Learners, low-income and foster youth students; however, we will offer support LEA-wide in order to maximize successful dual enrollment for the entire student population.	\$1,000.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	<p>Increase Student Retention:</p> <p>This is a maintenance goal for student retention. It is designed to continue the success we have had with addressing student disengagement from their schooling and supporting their decision to either rematriculate or graduate through our program. We have safe and welcoming facilities, with a positive school climate, which effectively encourages students to remain engaged in their schooling experience.</p>	Maintenance of Progress Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 5: Pupil Engagement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p>
---

An explanation of why the LEA has developed this goal.

<p>We measure our core program through the high rate of retention, graduation and rematriculating back in school. Our mission is to successfully help students make the turn away from dropping out of school. We have specially trained staff and teachers in trauma-informed practices, and they know how to effectively address student retention. In consultation with students, families, and staff, we will continue to provide a collaborative educational environment for the success of our students.</p>
--

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Desert Sands Charter High School used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics. Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Three supported the progress in meeting the following goal: Increase Student Retention.

### Action 3.1: Student Retention

Implementation Status: 4 - Full Implementation

Staff at Desert Sands recognize that student retention is closely tied to academic progress, access to supports, and the development of meaningful relationships. Efforts are focused on helping students succeed in their coursework while also addressing individual needs that may impact their ability to remain engaged. To support this, the school maintains consistent communication with students through multiple channels, including phone, text, and email. Designated staff focus specifically on monitoring student engagement and implementing strategies to reconnect students who may be disengaged. This work is supported by a collaborative team that includes operational staff, counselors, and social workers who provide additional academic and social-emotional supports. Staff are regularly encouraged to identify barriers to student participation and recommend solutions, which are then incorporated into schoolwide practices to better support student success. There were no substantive differences between the planned action and actual implementation.

### Action 3.2: Social and Emotional Supports

Implementation Status: 4 - Full Implementation

Desert Sands supports students' social-emotional and physical well-being through a coordinated team that includes counselors, social workers and a psychologist. These professionals engage in ongoing professional learning opportunities to enhance their ability to address student needs effectively. A schoolwide emphasis on social-emotional support is reinforced through staff training, ensuring that all employees are equipped with strategies to support student wellness. Desert Sands also provides a range of workshops and student-centered activities aimed at promoting well-being and engagement. The school further fosters a sense of belonging by offering community-building events throughout the year, along with experiential learning opportunities both domestically and internationally. These experiences extend learning beyond the classroom and contribute to student engagement and personal growth. There were no substantive differences between the planned action and actual implementation.

### Action 3.3: Access to Transportation

Implementation Status: 4 - Full Implementation

Desert Sands understands that transportation can be a significant barrier to student attendance and actively implements supports to address this need. The school provides monthly bus passes to students who require assistance, helping to ensure consistent access to the campus. When additional support is necessary, Desert Sands may utilize transportation services to assist students in traveling to and from school. The school also coordinates transportation for off-campus activities, including field trips and experiential learning opportunities, to ensure equitable access to these experiences. Through these efforts, Desert Sands works to remove barriers to attendance and promote student participation in both academic programs and enrichment opportunities. There were no substantive differences between the planned action and actual implementation.

### Action 3.4: Access to Nutrition

Implementation Status: 4 - Full Implementation

Desert Sands provides all students with access to complimentary meals and beverages throughout the school day, recognizing that addressing basic needs is essential to supporting student engagement, well-being, and academic success. Ensuring students are well-nourished is a key component in promoting consistent attendance and strengthening connections to the school. During the current year, Desert Sands enhanced its food services by partnering with FitChow, allowing for a broader selection of nutritious options, including daily access to meals, sandwiches, and healthy snacks at no cost to students. In addition, food and beverages are made available during school events such as Back to School Night, PAC/ELAC meetings, and other campus activities to encourage family participation and foster a welcoming school community. There were no substantive differences between the planned action and actual implementation.

**Overall Successes:** Desert Sands demonstrates strong performance in key school climate and operational indicators, including a success rate exceeding 95%, a 0% expulsion rate, and facilities maintained at an exemplary standard. These outcomes reflect a positive and supportive learning environment, as well as effective systems that promote student success and safety.

**Overall Challenges:** Desert Sands observed a notable decrease in student retention during the current year, with outcomes falling below the three-year LCAP goal. In response, site leadership, in collaboration with regional support staff, conducted a comprehensive review of available data to identify root causes and areas of need. Based on this analysis, Desert Sands has developed and begun implementing targeted strategies aimed at improving student retention and increasing re-engagement. These efforts will continue to be monitored and refined to support stronger outcomes in the coming year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards Desert Sands's English Language Learners, low-income, and foster youth students. Desert Sands able to meet their budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Desert Sands Charter High School used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Three helped make progress towards the LEA's goal: To Increase Student Retention.

#### Action 3.1: Student Retention

Effectiveness of Action: 2 - Somewhat Effective

Metric: Retention Rate

Analysis Statement: As indicated in the metrics above, the school experienced a notable decline in retention, decreasing by 17% over the past year and falling 10 percentage points below the established three-year LCAP target of 91% or higher. This trend represents a significant area of concern and has been prioritized for improvement. In response, site leadership, in partnership with regional support staff and other stakeholders, conducted a detailed analysis of available data to better understand underlying causes. Based on these findings, a series of targeted actions have been developed and are currently being implemented. Planned strategies include strengthening outreach and recruitment efforts to increase awareness of school programs, as well as enhancing intervention supports to promote more consistent academic progress and student success. Desert Sands leadership will continue to monitor this metric closely and refine strategies to improve retention outcomes in the coming year.

#### Action 3.2: Social and Emotional Supports

Effectiveness of Action: 3 - Effective

Metric: Success Rate

Analysis Statement: As indicated in the metrics above, the school maintained a success rate above 95% during the current year. Although this reflects a slight decrease from the baseline year, the outcome remains positive given the mobility of the student population and recent challenges related to enrollment and retention. The school attributes this level of performance to the continued implementation of academic supports, social emotional supports and systems designed to promote student achievement. Moving forward, efforts will focus on strengthening strategic academic planning, expanding targeted interventions, and increasing student participation in tutoring. Site leadership will continue to track this metric throughout the upcoming year and make data-informed adjustments as needed to support ongoing growth in student success.

#### Action 3.3: Access to Transportation

Effectiveness of Action: 3 - Effective

#### Metric: Attendance Rate

Analysis Statement: As indicated in the metrics above, the school experienced a 3% increase in attendance compared to the previous year, however, the rate remains below the three-year LCAP target of 95%. This progress is meaningful given ongoing challenges related to student attendance and engagement. For the upcoming school year, the school will continue to emphasize clear attendance expectations, including regular participation in scheduled school days and required intervention supports. To further address barriers, the school plans to expand transportation assistance, including the use of coordinated ride services, to improve student access to campus. Site leadership will continue to monitor attendance data and adjust strategies as needed to support continued progress toward the established goal.

#### Action 3.4: Access to Nutrition

Effectiveness of Action: 2 - Somewhat Effective

#### Metric: Non-completer Rate

Analysis Statement: As indicated in the metrics above, Desert Sands's non-completer rate increased by 1.5% during the current year, making the percentage to be above the baseline year and above the three-year LCAP target of 3% or lower. During the year, Desert Sands implemented targeted strategies to address this need, including elevating academic expectations, refining intervention programs, and expanding student supports such as access to free meals to enhance engagement and school connectedness. Desert Sands will continue these efforts while closely monitoring this metric in the upcoming school year. Leadership anticipates improvement as these strategies, along with additional actions and supports, are fully implemented to promote increased student achievement and outcomes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

#### Action 3.1: Student Retention

This action did not fully achieve the intended outcomes based on the associated metrics described in Prompt 3. The metric was revised to be an end-of-the-year measurement. However, based on educational partner input gathered through PAC/ELAC meetings, as well as feedback from staff and students, Desert Sands will continue to implement this action with targeted refinements. Site leadership has collaborated with regional personnel and key stakeholders to address this area of concern. A comprehensive analysis of data, trends, and contributing factors has been conducted to better understand underlying needs. Based on this review, targeted actions have been developed, implemented, and are being refined to improve outcomes. Key strategies include strengthening outreach and marketing efforts to increase awareness of the school's programs and services, as well as enhancing intervention systems to provide more timely and effective academic support. In addition, Desert Sands will implement further supports for students who are not meeting expected levels of achievement to ensure their needs are addressed. Site leadership will continue to monitor progress and make data-informed adjustments to improve retention outcomes in the upcoming year.

#### Action 3.2: Social and Emotional Supports

The metric was revised to be an end-of-the-year measurement.

#### Action 3.4: Access to Nutrition

This action did not fully achieve the intended outcomes based on the associated metrics described in Prompt 3. The metric was revised to be an end-of-the-year measurement. However, based on educational partner input gathered through PAC/ELAC meetings, as well as feedback from staff and students, Desert Sands will continue to implement this action with targeted refinements. In addition to strengthening

academic supports—such as individualized planning, ongoing monitoring of credit attainment and assessment performance, and strategic placement in interventions—Desert Sands is enhancing systems that support students’ social-emotional and physical well-being. Site leadership has determined that reducing the non-completer rate requires a comprehensive, whole-student approach. To address this, the school will expand student engagement opportunities by offering relevant workshops and activities, increasing access to support services for students and families, and strengthening connections between students and the school community. Through these combined efforts, the school anticipates improved student engagement and a decrease in the non-completer rate in the upcoming school year.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Student Retention	<p>All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve their retention. We will do the following:</p> <ul style="list-style-type: none"> <li>• Our student retention support personnel will engage in active outreach.</li> <li>• Student retention services will be trained.</li> <li>• Provide additional services that support retention.</li> </ul> <p>We serve English Learners, low-income, and foster youth with high mobility, who are typically behind in credits and have been out of school for about a semester or more. Ensuring that our English Learners, low-income and foster youth students are attending and remaining in school is critical to meeting their needs. To address this, we have trained personnel who provide outreach and monitoring of students so that their attendance is regular. We also have comprehensive incentive programs. We will continue these practices, for our English Learners, low-income and foster youth, because our data shows that we have been successful. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the retention rate of our students, and that we will stay above 90% each year.</p>	\$778,559.00	Yes
3.2	Social and Emotional Supports	<p>All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve the success rate. We will do the following:</p>	\$594,202.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>• Our SEL programs are offered as necessary.</li> <li>• Additional counseling, support personnel, and professional development.</li> <li>• Providing additional services that support student success such as yoga and SEL courses.</li> </ul> <p>To address our CSI status and improve our graduation rate, we will increase our staff's capacity to support the social-emotional health of our students and create a 1:1 academic plan to drive student's post-secondary goals. Our English Learners, low-income and foster youth student population were negatively impacted during the pandemic. Many sustained social and emotional trauma, which impacted our Success Rate, which measures graduation, retention and rematriculation. We know that the success of our program is connected to student social-emotional health. To address this issue, we have trauma-informed practices have helped address many of the social-emotional needs of our English Learners, low-income and foster youth students. Programs such as TREC, HOPE, counseling, support personal, social workers, professional development, special program such as yoga, have a positive impact on our students. We will continue to provide and improve on these actions and services, because we have witnessed success in our English Learners, low-income and foster youth students when their social-emotional needs are carefully considered. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the Success Rate of our program, and that we will stay above 90% each year.</p>		
3.3	Access to Transportation	<p>All English Learners, LTELs, low-income, and foster youth students will be supported with transportation services to improve their attendance. We will do the following:</p> <ul style="list-style-type: none"> <li>• Provide metro or bus passes to facilitate their access to public transportation.</li> <li>• Provide additional transportation services that support attendance in other areas.</li> </ul> <p>Our English Learners, low-income and foster youth students are frequently without access to transportation to school or other related programs. It is</p>	\$17,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>critical that they have good attendance in order to learn. To address this issue, we provide a variety of transportation options from metro passes, bus services, vans and such. We will continue to provide this additional service for students, because we have seen it improve their access to school and programs. These actions will have a positive impact on the attendance rates of our English Learners, low-income and foster youth students. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the average attendance rate and that we will stay above 85% each year.</p>		
3.4	Access to Nutrition	<p>All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve their completer rate. We will do the following:</p> <ul style="list-style-type: none"> <li>• Ensure that students have access to food on site.</li> <li>• Provide additional services that support nutrition.</li> </ul> <p>Food scarcity for our highly mobile English Learners, low-income and foster youth students is a serious concern. We intended on doing everything a school can do, including providing nutrition for all. We think this will help mitigate the drop-out rate, which is the non-completer rate for our independent study program. To address this, we will ensure that students have access to quality nutrition at the school or even delivered if necessary. Students cannot learn well when they are hungry, so we will continue to provide food services and/or other means for them to receive sustenance. These actions will decrease non-completer rates for our English Learners, low-income and foster youth student population. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the average non-completer rate, which will stay below 10% each year.</p>	\$61,000.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
4	<p>Increase Educational Partner Engagement:</p> <p>This is a maintenance goal for increasing educational partners' engagement. We believe in parent participation along with their student's academic progress, and we believe in parents should be encouraged to participate in meaningful ways to promote positive school outcomes.</p>	Maintenance of Progress Goal

State Priorities addressed by this goal.

<p>Priority 3: Parental Involvement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p>
---

An explanation of why the LEA has developed this goal.

<p>Involving parents in their student's orientation, awards, school activities, survey's and parent advisory, has a positive impact on the student's school experience. With consultation of our educational partners, we made this goal a maintenance of progress goal. There was a downturn in the school data for this goal stemming from the pandemic; however, we expect it to resume full strength in a few years.</p>
--

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Desert Sands Charter High School used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics. Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Four supported the progress in meeting the following goal: Increase Educational Partner Engagement.

### Action 4.1: Community/Parent Liaison and Meaningful School Activities

Implementation Status: 4 - Full Implementation

This year Desert Sands facilitated a variety of schoolwide engagement opportunities, including winter and spring graduation ceremonies, student and family orientations, Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) meetings, Open House, Parent-Teacher Conferences, and additional school events, workshops and ceremonies. Desert Sands also incorporated community partners, such as local colleges and healthcare providers, into select events to provide families with access to resources, information, and networking opportunities that support student success and well-being. There were no substantive differences between the planned action and actual implementation.

### Action 4.2: Translation and Outreach Services

Implementation Status: 4 - Full Implementation

Desert Sands prioritizes effective communication with families by ensuring that both written and verbal information is accessible in parents' primary languages. Bilingual staff are available at key engagement opportunities, including parent meetings, events, student orientations, and Parent-Teacher Conferences, to facilitate clear and meaningful communication. To further support accessibility, written materials such as notices, letters, and informational documents are translated into families' preferred languages by bilingual staff or through approved translation tools. In alignment with state requirements, essential documents and communications are consistently translated and disseminated through multiple channels, including email, text messages, phone calls, and mail. These practices ensure that all families have equitable access to important information and opportunities to engage with the school. There were no substantive differences between the planned action and actual implementation.

Action 4.3: Educational Partner Engagement  
Implementation Status: 4 - Full Implementation

Desert Sands promotes active family and student participation in a variety of school-sponsored events throughout the year, including graduation ceremonies, Open House, Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) meetings and other campus activities designed to strengthen school connectedness. These events can also serve as opportunities to engage community partners, who are invited to share resources and information with families to support student success and well-being. Through these efforts, Desert Sands enhances awareness of available supports and fosters meaningful connections between families, the school, and community organizations. There were no substantive differences between the planned action and actual implementation.

Overall Successes: Desert Sands effectively gathered meaningful and actionable input from educational partners through surveys and school-sponsored engagement opportunities. The school also strengthened its efforts to connect students and families with relevant community resources to support overall student well-being and success. Survey feedback indicates that families feel encouraged to engage in school activities, and students continue to report a strong sense of safety on campus. These outcomes reflect positive engagement and a supportive school climate.

Overall Challenges: Desert Sands has identified increasing participation in school-sponsored events and engagement opportunities as an area for continued growth, with a particular focus on Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) meetings. Additionally, Desert Sands aims to expand and diversify its network of community partners to provide a broader range of support services for students and families. By strengthening these partnerships, the school seeks to enhance access to resources that support student achievement and overall well-being.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards Desert Sands's English Language Learners, low-income, and foster youth students. Desert Sands was able to meet their budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Desert Sands Charter High School used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Four helped make progress towards the LEA's goal: To support the progress in meeting the goal to Increase Educational Partner Engagement.

Action 4.1: Community/Parent Liaison and Meaningful School Activities

Effectiveness of Action: 3 - Effective

Metric: Participation Counts

Analysis Statement: As reflected in the metrics above, Desert Sands had 2,275 instances of participation in meaningful school activities, representing a sizable increase from the prior year. This growth indicates improved engagement among students and families. Desert Sands leadership attributes this increase to consistent and ongoing communication between staff, students, and families, as well as a continued focus on relationship-building practices across the school. The use of clear, frequent, and accessible communication has contributed to higher levels of participation and connection. Desert Sands will continue to implement and refine these strategies in the upcoming school year to sustain and further enhance student and family engagement.

Action 4.2: Translation and Outreach Services

Effectiveness of Action: 2 - Somewhat Effective

Metric: PAC/ELAC Participation

Analysis Statement: As indicated in the metrics above, attendance at Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) meetings declined by 24 participants compared to the previous year. Desert Sands values the important contributions of parents and guardians in shaping school programs and decision-making processes and is committed to strengthening their involvement. School leadership has identified a need to refine outreach efforts and adopt more engaging and flexible approaches to encourage family participation. Moving forward, Desert Sands will implement a range of strategies designed to increase attendance and ensure that families feel supported and motivated to engage in these meetings. These efforts are intended to expand meaningful family involvement and ensure that a broader range of educational partner voices are represented in school decision-making.

Action 4.3: Educational Partner Engagement

Effectiveness of Action: 3 - Effective

Metric: School Survey Data

Analysis Statement: As reflected in the metrics above, Desert Sands's annual survey data indicates high levels of satisfaction and school connectedness among educational partners. Specifically, 98% of parents reported feeling encouraged to participate in school matters, 100% of students indicated they feel safe on campus, 94% of students reported a sense of connection to the school, and 99% of teachers reported feeling safe. These results reflect a positive school climate and strong engagement across stakeholder groups. Desert Sands will continue to implement current practices and strategies to sustain these outcomes and pursue further improvements in the upcoming year.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 4.2: Translation and Outreach Services

This action did not fully achieve the desired outcomes based on the metrics identified in Prompt 3. However, input from educational partners—including feedback gathered through PAC/ELAC meetings, staff, and students—indicates that this action should continue with strategic adjustments.

Desert Sands school leadership has identified a need to enhance outreach efforts and develop more flexible and engaging approaches to increase participation in advisory meetings. Planned strategies include offering meetings at varied times and exploring alternative locations to improve accessibility. Additionally, the school will implement targeted efforts to increase attendance and ensure families feel informed,

welcomed, and encouraged to contribute. Through these actions, Desert Sands aims to strengthen family engagement and ensure that educational partner input more fully represents the diverse perspectives of the school community.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Community/Parent Liaison and Meaningful School Activities	<p>All parents of English learners, LTELs, low-income, and foster youth students will have access to meaningful parent activities and events at school. We will do the following:</p> <ul style="list-style-type: none"> <li>• Community liaison who does outreach.</li> <li>• Provide meaningful parent activities</li> <li>• Promote events and activities for parents to participate in at school.</li> </ul> <p>The parents of English Learners, low-income and foster youth students are some of the least involved educational partners. Parent and educational partner engagement is an essential component to effective schooling for our English Learners, low-income and foster youth students. We know that parents, guardians, and their families have a difficult time engaging with meaningful school activities. We will continue to provide a community and/or parent liaison who does outreach and promotes the school as a welcoming place for everyone. We will continue to provide this action, because we know that parent engagement is important and helpful in promoting the value of education in the family. We expect that these actions will increase involvement of the parents of English Learners, low-income and foster youth. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our participation counts to be above school enrollment each year.</p>	\$234,822.00	Yes
4.2	Translation and Outreach Services	<p>All English Learners, LTELs, low-income and foster youth students, and parents will be supported with actions and services to improve their translation needs. We will do the following:</p> <ul style="list-style-type: none"> <li>• Our translation services are capable of translating for multiple languages in writing.</li> </ul>	\$15,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>• Oral translation services are also provided at school events.</li> <li>• Provide additional translation and outreach services as necessary.</li> </ul> <p>Many of our English Learners and low-income students speak a language other than English. Our English Learners, low-income and foster youth students require effective communication and outreach about the educational programs and opportunities at the site. Good communication improves a sense of connection. Translations in student's primary languages is critical for two-way communication efforts. Additionally, outreach and communication services are critical to school programs. We will continue to support this access to the school events and efforts through translating materials. We expect that these actions will sustain student's sense of connection for our English Learners, low-income and foster youth student groups. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our students to report that over 90% feel connected to school each year.</p>		
4.3	Educational Partner Engagement	<p>Educational partner engagement is essential to a positive school experience and outcomes, especially for our English learners, LTELs, low-income, and foster youth. We will do the following:</p> <ul style="list-style-type: none"> <li>• Provide meaningful educational partner engagement actives.</li> <li>• Provide two-way communication opportunities.</li> <li>• Provide additional services that support virtual communication and materials as necessary.</li> </ul> <p>Our English Learners, low-income and foster youth students and families often struggle with being involved in meaningful school activities. Sustaining educational partner engagement requires expenses for such things as communications, outreach, materials, activities and transportation. We will continue this action, because we have witnessed the positive impact on schools when barriers to access are removed for our English Learners, low-income and foster youth students. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect that our parents will report that over 90% feel encouraged to participate each year, based on the school survey.</p>	\$7,000.00	Yes

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2026-27]

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

## Required Descriptions

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.2	<p><b>Action:</b> All academic interventions and program materials</p> <p><b>Need:</b> Due to a lack of progress in this goal, Desert Sands was offered Differentiated Assistance (DA) by the Los Angeles County Office of Education. Desert Sands held a collaborative evaluation and did a professional needs assessment to understand this</p>	For Desert Sands' DA plan, the staff will focus on the English Language Arts API (which includes CAASPP scores) for Hispanic and low-income students and the reclassification rate of English Learners. Desert Sands site leadership will begin a system that better tracks the classes students are assigned, with an emphasis on students completing math and English credits. Staff that support EL students will be better supported through increased data tracking and professional	<p>We will closely monitor progress on our Math and Reading interventions programs.</p> <p>The following metrics are applicable: (NWEA ELA all students, EL, low-income, Hispanic) (NWEA ELA all students, EL, low-income, Hispanic)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>underperformance. The Desert Sands team analyzed data on the California School Dashboard and internal data and identified that the reason for the ineffectiveness of this action is due to the types of classes students are enrolled in and subsequently the credits they are turning in.</p> <p>Students who come to us are typically about 5-grade levels or more below in their academics. Based on their NWEA scores we provide a personalized learning environment and interventions targeted to meet their academic gaps. As shown in the metrics section above, our socioeconomically disadvantaged students are far below grade level.</p> <p>Additionally, to address the requirements for Differentiated Assistance, we examined the needs of our student groups in the red on the 2023 CA Dashboard, which were our Hispanic and socioeconomically disadvantaged student groups in both ELA and in Math. We found that our Hispanic students were also low-income students. The 2024 Dashboard had no student groups in the red for ELA and mathematics. Our 2025 Dashboard had no student groups in the red for ELA, and mathematics had our Hispanic and socioeconomically disadvantaged groups in the red (Metrics are reported in Goal #2).</p> <p>Teacher and parent feedback indicated that they support the importance of the intervention programs to increase students' English and math skills.</p>	<p>development. Finally, there will be a bigger push to increase the number of students seeing a tutor.</p> <p>Additionally, we will provide professional development for teachers, paraprofessionals, and tutors, focused on the implementation of intervention programs. Training to include new strategies and pedagogies proven to increase student achievement. Develop and implement intervention programs for students who require additional support. These programs may involve one-on-one tutoring, small-group instruction, or specialized resources. These actions are offered year round and on a daily basis.</p> <p>We expect that these actions will be effective at increasing students' mathematics and reading assessments. However, because we expect that all students with low proficiency will benefit, this action is provided on an LEA-wide basis.</p>	<p>CA Dashboard Academic Indicator results for ELA and Math.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the programs provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Scope:</b> Schoolwide</p>		
<p><b>1.3</b></p>	<p><b>Action:</b> Tutoring and supports for students</p> <p><b>Need:</b> To address the requirements for Comprehensive Support and Improvement (CSI), we examined the needs of our student groups in the red on the 2023 CA Dashboard for their Graduation Rate. These were our all-student group, African American, Hispanic, White, and students with disabilities. We noticed that these students were also in the socioeconomically disadvantaged group, which was in the red. The 2024 CA Dashboard had these student groups in the red: African American, Hispanic, socioeconomically disadvantaged, students with disabilities and White students. Our 2025 Dashboard had these student groups in the red: African American, English Learners, LTELs, Hispanic, socioeconomically disadvantaged, and students with disabilities.</p> <p>Additionally, students who enroll with us are typically about 30 or more credits behind in school.</p> <p>Teachers, students, and parents provided feedback indicating that they support the high-value tutors bring to the program.</p>	<p>We are implementing intensive tutoring with increased participation and access to virtual and in-person tutors. A high-quality tutor and student relationship with help increase participation.</p> <p>This will help them complete their assignments and increase the rate at which they finish their courses. Tutors support these students both virtually and in person and are available during school hours and on Saturdays. They scaffold skills that need to be reinforced through additional practice. Tutors deliver a critical level of support that we have seen be successful in helping address academic gaps effectively and improve student progress toward credit recovery and graduation. These actions are done throughout the year and on a daily basis.</p> <p>We expect that these actions will be effective at increasing students' credit completion rate which leads to improved graduation rates. However, because we expect that all students with low proficiency will benefit, this action is provided on an LEA-wide basis</p>	<p>We will closely monitor progress on our credit completion rates for all of our student groups, especially for the following student groups in the red: English Learners, African American, Hispanic, White, students with disabilities, and socioeconomically disadvantaged groups, We expect them to increase each year. Additionally, student groups on the Dashboard graduation rate will be monitored.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Scope:</b> Schoolwide</p>		
<p><b>1.4</b></p>	<p><b>Action:</b> Counseling students towards graduation and materials</p> <p><b>Need:</b> Historically, some of our lowest graduation rates are among the English learners, LTEL low-income, and foster youth student groups, who are also students with disabilities, when compared to the All-student group who are at 77.5% for the 2023 DASS graduation rate. We examined the needs of our students who are behind in their coursework and credits. They are behind for a variety of reasons and many obstacles need to be addressed before they graduate successfully. The DASS Graduation rate for 2024 was 94.6%, and in 2025 it was 92.4%.</p> <p>Teachers, students, and parents provided feedback indicating that they support the high-value counselors bring to their students</p> <p><b>Scope:</b> Schoolwide</p>	<p>Desert Sands identified that the reason for the ineffectiveness of this action was due to a lack of support for potential graduates from the beginning of the year. Desert Sands will adjust the design of the action to ensure that students experience increased success in the upcoming three-year LCAP cycle. This change includes having counselors meet more regularly with future graduates and site leadership tracking their progress right as the new year begins. There will also be a bigger push to enact interventions for students not on track to graduate on time.</p> <p>On an ongoing basis, throughout the year, our counselors will be principally directed to promote high expectations and provide guidance toward graduation. Counselors will promote a positive working relationship and will connect frequently or as needed with high-needs students, to help meet social-emotional needs using programs that promote motivation and guide students to achieve their graduation goals.</p> <p>Counselors are a critical factor in helping students graduate. Counselors will provide additional counseling and social-emotional support for English Learners, LTEL, low-income and foster youth students, and students with disabilities. Counseling occurs weekly for our high-needs students. There are also multiple ways for counselors to connect with students such as one-</p>	<p>We will closely monitor progress on our DASS Graduation rates for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities. We expect them to increase each year.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>on-one, group meetings, and home visits. Counselors are continually in contact with teachers and parents to help monitor the progress of students. These actions are done through the school year and on a daily basis.</p> <p>We expect to continue providing counselors, who help address obstacles to graduation that students with disabilities who are English learners, low-income and foster youth students have; however, because we expect that all students could benefit, action is provided on an LEA-wide basis.</p>	
<p><b>1.5</b></p>	<p><b>Action:</b> Student activities that increase learning efforts</p> <p><b>Need:</b> As demonstrated in the Identified Needs and Metrics sections, English Learners, low-income, and foster youth students are often underperforming in their capacity for credit completion. The expected average is 4.0 for all students. They often exhibit low motivation to complete their assignments.</p> <p>Students, teachers, and parents provided feedback indicating that they support the value of meaningful student activities and incentives.</p> <p><b>Scope:</b> Schoolwide</p>	<p>To address this need, we will improve the relationships between staff and students to increase school participation and engagement. The school will acknowledge student achievement and celebrate student successes to get buy-in. The school will also boost student morale by increasing student-led events and activities creating a positive learning environment. Students are recognized for their efforts in a variety of ways that are meaningful to them. This includes but is not limited to celebrations, field trips and enrichment experiences.</p> <p>Throughout the school year, our students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. We have witnessed how these actions can inspire students to continue to be productive and strive to accelerate their learning.</p> <p>We expect that these actions will have a positive impact on work completion rates. Furthermore,</p>	<p>We will closely monitor progress on our credit completion rates for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities. We anticipate from these actions and support services to see an increase up to 4 credits per learning period.</p> <p>We will also consider input from students and parents to enhance the quality of the program provided</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		because we expect that all students could benefit from this action, it is provided on a schoolwide basis.	
2.1	<p><b>Action:</b> Career and college-readiness for English Learners, low income and foster youth students</p> <p><b>Need:</b> Some of our lowest career and college-readiness rates are among the English learners, low-income, and foster youth student groups who are all below the state average of 18.7% for graduates completing a CTE pathway. They were also below the state average of 44.5% completing A-G courses and below 11.1% in the A-G + CTE pathway completion rate. In 2024, graduates completing A-G was 0.8% and CTE pathway completion was 2.4%. In 2025, graduates completing A-G was 2.0% and CTE pathway completion was 1.4%. Our English Learners, low-income and foster youth students need to be prepared to pursue a career or attend a college.</p> <p>Students, teachers, and parents provided feedback indicating that they support the value of meaningful student activities and incentives.</p> <p><b>Scope:</b> Schoolwide</p>	<p>Desert Sands identified that the reason for the ineffectiveness of this action was due to a lack of emphasis on assigning A- G courses and promoting CTE and Dual Enrollment classes to EL, LTELs, low-income, and foster youth students. Desert Sands will adjust the design of the action to ensure that students experience increased success in the upcoming three-year LCAP cycle. This change includes increasing oversight of class assignments and better tracking of the credits EL, LTELs, low-income, and foster youth students are turning in.</p> <p>We know that English learners, LTELs, low-income, and foster youth students need to be prepared to pursue a career or attend a college. To address this need, when our students start school, they engage in career inventory, exploration, and professional skills, to align their interests into either CTE or other secondary education. We take into consideration local employment opportunities and student interests to help guide students into valuable coursework. Support personnel, staff, partnerships, and materials are essential to tailor and implement the curriculum for students. We have witnessed our students be successful in these programs.</p> <p>We expect that these actions will have a positive impact on our college and career readiness rates for our English learners, LTEL, low-income, foster youth, and students with disabilities Furthermore,</p>	<p>We will closely monitor progress on our CTE completion rates and our A-G completion rates, and dual enrollment for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities.</p> <p>We will also consider input from the parents, students and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		because we expect that all students could benefit from this action, it is provided on a schoolwide basis.	
2.2	<p><b>Action:</b> Professional development addressing English Learners, low income and foster youth students</p> <p><b>Need:</b> Identified Needs and Metrics sections, the CAASPP results in the ELA, math, and science assessments show that many of our lowest performing students are English learners, low-income, and foster youth student groups when compared to the All student group. Desert Sands identified that the reason for the ineffectiveness of this action was due to a lack of emphasis on students completing math and English credits.</p> <p>Teachers and parents provided feedback indicating that they support the value of professional development to increase effectiveness</p> <p><b>Scope:</b> Schoolwide</p>	<p>Desert Sands will adjust the design of the action to ensure that students experience increased success in the upcoming three-year LCAP cycle. This change includes better tracking of the classes students are assigned and the credits being turned in. Desert Sands is also creating test prep materials to give students a few weeks ahead of testing.</p> <p>To address this need, our staff will be expected to participate in professional development that supports EL, LTEL, LI, and FY by attending designated local or regional trainings, workshops/seminars. Upon completion of the PD, staff will report training outcomes and plan to implement instructional methodologies learned/gained to increase student achievement and productivity. Best practices will also be shared with colleagues to support a school-wide effort.</p> <p>Throughout the school year, our teachers regularly participate in trainings, conferences, workshops, and professional learning communities to provide information for our capacity to address our students' academic and social-emotional needs. We have seen a positive impact on our At-Promise students with additional staff training, such as trauma-informed practices.</p> <p>We anticipate that the increase in professional collaboration and learning will increase our state assessment results for our English learners, LTEL,</p>	<p>We will closely monitor progress on the CAASPP results, especially for English learners, LTEL, low-income, foster youth, and students with disabilities. We expect that these actions will have a positive impact on students with CAASPP scores increasing.</p> <p>We will also consider input from the parents, students, and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		low-income, foster youth, and students with disabilities will also increase. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis.	
2.3	<p><b>Action:</b> Technology Access &amp; Support</p> <p><b>Need:</b> All English Learners, LTEL, low-income, and foster youth students will have 100% access to the curriculum and instructional support. We know that access to effective technology platforms and support programs is critical to student access to curriculum and instruction.</p> <p>Teachers and parents provided feedback indicating that they support the value of implementing a standards-based curriculum.</p> <p><b>Scope:</b> Schoolwide</p>	<p>We have seen success with teachers and staff continually supporting students' access to technology, and we will continue to provide training and materials to close any gaps. Computer and hot spots are provided for every incoming student. We expect that these actions will have a positive impact on our students.</p> <p>These actions are done throughout the year and on a daily basis as needed.</p> <p>There is an ongoing effort to ensure that our English learners, LTEL, low-income, and foster youth students have access to technology. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>We will monitor and sustain 100% of our students' access to technology for their educational program.</p> <p>We will also consider input from the parents, students and teachers.</p>
2.4	<p><b>Action:</b> Support for Standards-based Curriculum and Instruction</p> <p><b>Need:</b> All English Learners, LTEL, low-income, and foster youth students will have access to high-quality standards-aligned curriculum and instruction that is continually improving. The implementation score for our standards-based</p>	<p>Desert Sands will adjust the design of the action to ensure that students experience increased success in the upcoming three-year LCAP cycle. This change includes site leadership advocating for curriculum feedback from Desert Sands staff and then continuously tracking the updates being made by the curriculum team. .</p> <p>Additionally, our staff will continue to participate in local curriculum review, engage in dialogue, and</p>	<p>We will closely monitor progress on our implementation of standards-based curriculum score from the CDE Standards Implementation Rubric. We expect improvement on the implementation score each year.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>curriculum is 4.63, based on the CDE Standards Implementation Rubric. Additionally, Desert Sands identified that the reason for the ineffectiveness of this action was due to the turnaround time it takes for teacher feedback to make it into the curriculum.</p> <p>Teachers, and parents provided feedback indicating that they support the value of implementing standards-based curriculum.</p> <p><b>Scope:</b> Schoolwide</p>	<p>provide input on aligning standards to instructional practices. Professional Development will guide the implementation of a standards-based curriculum. Support will be provided by curriculum specialists to help analyze data results to develop an improved process to monitor the effectiveness of our curriculum and instructional practices. Teams will adopt an Online Learning Platform to personalize student learning in Mathematics &amp; ELA.</p> <p>Throughout the school year our personnel will continue to collaborate and develop a high-quality, customized curriculum, and provide coaching to support implementation for the unique needs of our student groups.</p> <p>We expect that these actions will have a positive impact on our educational program resulting in a higher score each year. An improved program supports our English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p>	<p>We will also consider input from the parents, students, and teachers.</p>
<p><b>2.7</b></p>	<p><b>Action:</b> Dual enrollment for students</p> <p><b>Need:</b> College going rates among our English Learners, low-income and foster youth student groups tend to be low.</p> <p><b>Scope:</b></p>	<p>To address this need, our English Learners, low-income and foster youth students need additional staff support to be prepared and supported when taking a college course. We will have an internal staff person, who monitors with our teachers, those students who are assigned to dual enrollment courses and need help to support their efforts. Costs for college courses, books, materials, field trips and extra hours for support personnel are just a few of the possible</p>	<p>We expect student participation in dual enrollment to continue to increase each year for our English learners LTELs, low-income.</p> <p>We will also consider input from the parents, students, and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Schoolwide	<p>expenditures for this action. This could also include professional development for helping our At-Promise youth be successful in these challenging courses.</p> <p>These actions are offered throughout the school year and on a daily basis as needed.</p> <p>We know that these actions will have a positive impact on English Learners, low-income and foster youth students; however, we will offer support LEA-wide in order to maximize successful dual enrollment for the entire student population.</p>	
3.1	<p><b>Action:</b> Student Retention</p> <p><b>Need:</b> We serve English Learners, LTELs, low-income and foster youth, with high mobility, who are typically behind in credits and have been out of school for about a semester or more. We have seen success in the retention rate for our student population, which is currently at 83.01%.</p> <p>Teachers and parents provided feedback indicating that they support the value of supporting student retention.</p> <p><b>Scope:</b> Schoolwide</p>	<p>Ensuring that our English Learners, low-income and foster youth students are attending and remaining in school is critical to meeting their needs. To address this, we have trained personnel who provide outreach and monitoring of students so that their attendance is regular. We also have comprehensive incentive programs. We will continue these practices, for our English Learners, low-income and foster youth.</p> <p>These actions are done throughout the school year and on a daily basis as needed to meet students' needs.</p> <p>We expect that these actions will have a positive impact on our educational program resulting in a higher score each year. An improved program supports our English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p>	<p>We expect that these actions will have a positive impact on the Retention Rate of our program and that we will stay above 80% each year for all of our English Learners, LTELs, low-income, and foster youths.</p> <p>We will also consider input from the parents, students, and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p><b>3.2</b></p>	<p><b>Action:</b> Social and Emotional Supports</p> <p><b>Need:</b> We serve English Learners, LTELs, low-income, and foster youth students, many of whom have sustained social and emotional trauma. How we address this impacts our Success Rate, which measures graduation, retention and rematriculation. The Success Rate is currently 95.25%.</p> <p>Teachers and parents provided feedback indicating that they support the value of student success.</p> <p><b>Scope:</b> Schoolwide</p>	<p>We know that the success of our program is connected to student social-emotional health. To address this issue, we have trauma-informed practices that have helped address many of the social-emotional needs of our English learners, LTELs, low-income, and foster youth students. Programs such as our SEL, counseling, support personnel, social workers, professional development, and special programs such as yoga, have a positive impact on our students. English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p> <p>These programs are done throughout the school year and on a daily basis as needed to support students' needs. Teachers and counselors are diligent about student's socioemotional needs.</p> <p>We will continue to provide and improve on these actions and services because we have witnessed success in our English Learners, low-income and foster youth students when their social-emotional needs are carefully considered. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>We expect that these actions will have a positive impact on the Success Rate of our program and that we will stay above 80% each year for all of our English Learners, LTELs, low-income, and foster youths.</p> <p>We will also consider input from the parents, students, and teachers.</p>
<p><b>3.3</b></p>	<p><b>Action:</b> Access to Transportation</p> <p><b>Need:</b> We serve English Learners, LTELs, low-income, and foster youth students are frequently without access to transportation to school or other related programs. It is critical</p>	<p>To address this issue, we provide a variety of transportation options from metro passes, bus services, and such. We will continue to provide this additional service for students because we have seen it improve their access to school and programs.</p>	<p>We expect that these actions will have a positive impact on the average attendance rate and we will stay above 85% each year for all of our English Learners, LTELs, low-income, and foster youths.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>that they have good attendance in order to learn. The average attendance rate is currently 86.1%.</p> <p>Teachers and parents provided feedback indicating that they support the value of supporting student retention.</p> <p><b>Scope:</b> Schoolwide</p>	<p>These actions will have a positive impact on the attendance rates of our English learners, LTELs, low-income, and foster youth students. They are offered throughout school year and on a daily basis as needed.</p> <p>English learners, LTEL, low-income, foster youth, and students with disabilities are served by this action. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p>	<p>Chronic absenteeism is not a match for a DASS school.</p> <p>We will also consider input from the parents, students, and teachers.</p>
<p><b>3.4</b></p>	<p><b>Action:</b> Access to Nutrition</p> <p><b>Need:</b> Food scarcity for our highly mobile English Learners, LTELs, low-income, and foster youth students is a serious concern. We intended to do everything a school can do, including providing nutrition for all. We think this will help mitigate the drop-out rate, which is the non-completer rate for our independent study program. The non-completer rate is currently 4.75%.</p> <p>Teachers and parents provided feedback indicating that they support the value of supporting student retention.</p> <p><b>Scope:</b> Schoolwide</p>	<p>To address this, we will ensure that students have access to quality nutrition at the school or even delivered if necessary. Students cannot learn well when they are hungry, so we will continue to provide food services and/or other means for them to receive sustenance.</p> <p>These actions are done on a daily basis as needed to support students need for food.</p> <p>These actions will decrease non-completer rates for our English Learners, LTEL, low-income, and foster youth student population. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>We expect that these actions will have a positive impact on the average non-completer rate, which will stay below 10% for all of our students.</p> <p>We will also consider input from the parents, students, and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p><b>4.1</b></p>	<p><b>Action:</b> Community/Parent Liaison and Meaningful School Activities</p> <p><b>Need:</b> Feedback from teachers, SRS, administrators, and counselors, state that the parents of English Learners, LTELs, low-income and foster youth students are less involved in their student’s educational activities. According to our educational partners, parents are an essential component to effective schooling and the overall academic success of these students. As shown above, in the metrics section, we expect the participation counts to be above enrollment.</p> <p>Teachers and parents provided feedback indicating that they support the value of implementing parent engagement activities.</p> <p><b>Scope:</b> Schoolwide</p>	<p>To ensure our continued success, we hope to see an increase in parent participation. We will continue to provide a community liaison who does outreach and promotes the school as a welcoming place for EL, FY, and LI through organizing on-site activities and events.</p> <p>We believe that increasing parent/family engagement, as well as creating and cultivating connections in the community, will have a positive impact on students. These actions occur throughout the school year.</p> <p>The support of the community liaison is designed to meet the needs most associated with increased involvement of the parents of English Learners, low-income and foster youth. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>We will closely monitor progress on our parent participation count so that they are above the enrollment amount.</p> <p>We will also consider input from the parents, students, and teachers.</p>
<p><b>4.2</b></p>	<p><b>Action:</b> Translation and Outreach Services</p> <p><b>Need:</b> According to our educational partners, parent and student connectedness is an essential component to effective schooling and the overall academic success of the identified students. We currently have 36 participants in our PAC/ELAC meetings this year.</p>	<p>Desert Sands identified that the reason for the ineffectiveness of this action was due to a lack of promotion these meetings received. Desert Sands will adjust the design of the action to ensure that students experience increased success in the upcoming three-year LCAP cycle. This change includes talking to staff about the importance of parents attending these meetings, creating options on how parents can attend and providing incentives to those who show up.</p>	<p>We expect that these actions will have a positive increase on participation in ELAC and PAC meetings. This is good for all of our English Learners, LTELs, low-income and foster youth.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Teachers and parents provided feedback indicating that they support the value of supporting student retention.</p> <p><b>Scope:</b> Schoolwide</p>	<p>Throughout the school year, we are committed to eliminating language barriers for families of our English learners. This is necessary to ensure that students and families are aware of school events and activities. We will continue to increase awareness of the school events and activities through translating materials and/or outreach services. The community liaison in coordination with our staff will utilize these services to increase communication with our EL, FY, and LI parents using written, verbal, and virtual communications.</p> <p>This action is designed to meet the needs most associated with increased communication and involvement of the parents of English Learners, low-income and foster youth. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>We will also consider input from the parents, students, and teachers.</p>
<p><b>4.3</b></p>	<p><b>Action:</b> Educational Partner Engagement</p> <p><b>Need:</b> Feedback from teachers, administrators, and counselors, state that the parents of English Learners, LTELs, low-income, and foster youth students are less involved in their student's educational activities. Results from our school survey show that our parents report that 98% feel encouraged to participate.</p> <p>Parents and teachers provided feedback indicating that they support the value of educational partners.</p>	<p>According to our educational partners, parent involvement is essential to effective schooling and the overall academic success of these students. Sustaining educational partner engagement requires expenses for such things as communications, outreach, materials, activities and transportation.</p> <p>We believe in the importance of parents feeling encouraged to participate. We expect that the community liaison in coordination with our staff will utilize these resources to increase positive two-way communication with our EL, FY, and LI parents using written, verbal and virtual communications.</p>	<p>We expect that these actions will have a positive impact on the school survey results. We expect parents will report that over 85% feel encouraged to participate each year, based on the school survey.</p> <p>We will also consider input from the parents, students, and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<b>Scope:</b> Schoolwide	We will continue this action, because we have witnessed the positive impact on schools when barriers to access are removed for our English learners, LTELs, low-income, and foster youth students. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.	

### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
<b>1.1</b>	<p><b>Action:</b> Long-term English Learners (LTEL) and English Learners support staff, interventions, and materials</p> <p><b>Need:</b> According to the 2023 CA Dashboard, our English Learner student group was in the orange on the English Learners Performance Indicator (ELPI). We also examined our reclassification rate trend and did a needs assessment on our LTELs. On the 2024 CA Dashboard, our ELPI status increased to yellow at 41.3%, making progress. Our 2025 ELPI shows 46.2% for EL, which is a green status, and our LTELs were at 50%, which is also green.</p>	<p>Desert Sands identified that the reason for the ineffectiveness of this action was due to a lack of leadership and oversight of the staff supporting EL and LTEL students. Desert Sands will adjust the design of the action to ensure that English Language learners experience increased success in the upcoming three-year LCAP cycle. This change includes the EL staff receiving additional support and having more time to dive into data so more effective interventions can be given. There will also be a bigger push in having EL and LTEL students see a tutor.</p> <p>We will implement a high-quality English Language acquisition program and add additional tutoring and paraprofessional staff to support students in their ELD SGI courses and with System 44 to address the identified needs.</p>	We will closely monitor progress on this action which is designed to meet the needs most associated with English learner students. Using Integrated and designated unit tests on appropriate ELD & ELA standard, and using real-time tracking, student language proficiency, and academic progress will be monitored and we expect their ELPI results, as well as the reclassification rate, to increase as a result of the personalized academic

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>Teacher and parent feedback indicated that they support the importance of the EL program and support for increasing students' skills.</p> <p><b>Scope:</b> Limited to Unduplicated Student Group(s)</p>	<p>Throughout the year and on an ongoing basis, we will address students' needs by providing an EL Paraprofessional or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Students will receive individualized support based on their specific English proficiency level. We use an in collaboration with students and families. Implementing our Designated and Integrated English language development (ELD) is an integral part of our comprehensive program for every English learner to meet the linguistic and academic goals at their grade level as identified by their level of proficiency. ELs participate in Newcomer programs, Structured English Immersion, or English Language Mainstream, based on their capacity to successfully advance in their language acquisition and their academics. Support staff will provide specific language instruction through vocabulary and language development to support literacy skills and language acquisition. These actions are done year round on a daily basis.</p> <p>We expect that these actions, which are designed to address our EL and LTEL students' needs, will be effective at increasing our students' performance on the ELPAC and improving their reclassification rate. This action is provided on a limited basis.</p>	<p>support they will receive from qualified personnel.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided</p>
1.7	<p><b>Action:</b> Professional Development to Support English Learners and LTELs</p>	<p>Desert Sands will adjust the design of the action to ensure that students experience increased success in the upcoming three-year LCAP cycle.</p>	<p>We will monitor progress on this action as it's designed to meet the</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p><b>Need:</b> According to the CA Dashboard, our English Learner student group was in the orange on the English Learners Performance Indicator (ELPI). We also examined our reclassification rate trend and did a needs assessment on our LTELs. Desert Sands identified that the reason for the ineffectiveness of this action was due to a lack of support in tracking the work the EL and LTEL students were completing and making effective adjustments when analyzing the student data. On the 2024 CA Dashboard, our ELPI status increased to yellow at 41.3%, making progress. 41.1% of LTELs made progress. 2025 ELPI shows 46.2% for EL, which is a green status, and our LTELs were at 50%, which is also green.</p> <p>Parent and teacher feedback indicated that they support the importance of professional development to support English learners and LTELs.</p> <p><b>Scope:</b> Limited to Unduplicated Student Group(s)</p>	<p>This change includes better tracking of the classes EL and LTEL students are assigned and the credits being turned in, maximizing intervention class enrollment, and reviewing the additional interventions assigned.</p> <p>To address this need, we will provide professional development opportunities for teachers to enhance their skills in addressing diverse learning needs. This may involve workshops, seminars, or collaborative learning communities focused on effective instructional practices. Our English learners will be served by trained EL Paraprofessionals or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Trainings could include, but are not limited to developing an EL Tool Kit, implementing effective EL strategies using SIOP (Sheltered Instruction Observational Protocol), and scaffolding strategies such as modeling, building schema, contextualization, and others. Additionally, workshops, conferences, and professional learning communities provide information that will build the capacity of faculty and staff to increase student performance.</p> <p>Professional development happens throughout the year at least three times on various topics. There is follow-up with staff who are trained using the professional learning community's model. There are opportunities for staff to engage in their effectiveness with each other and share best practices.</p>	<p>needs most associated with English learner students. Using real-time tracking, student language proficiency and academic progress will be monitored, and we expect that the CA Dashboard ELPI, as well as the reclassification rate, will increase.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		We expect that our English Learners, including long-term English Learners' (LTEL), ELPAC scores, ELPI, as well as the reclassification rate, will increase as a result of the personalized academic support and attention they will receive from qualified personnel. This action is provided on a limited basis.	

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not Applicable.

### Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

We are a single school LEA and an independent study DASS charter school, with over 55% unduplicated students. Our students are served by additional personnel specifically trained to address their specific social-emotional and academic needs. The funds were used to increase or retain critical personnel, who are essential to implementing each goal. Listed below are the goals and actions where there are additional personnel who provided direct services to unduplicated students:

- Goal 1 Action 2: All academic interventions and program materials – have intervention teachers for math, ELA, and reading.
- Goal 1 Action 3: Tutoring and support for students – have many tutors proficient in multiple subject areas.
- Goal 3 Action 2: Social-emotional, trauma support services and materials.

We are single school LEA and do not have comparison schools.

<b>Staff-to-student ratios by type of school and concentration of unduplicated students</b>	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery.	A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery.
Staff-to-student ratio of certificated staff providing direct services to students	A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery.	A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery.

# 2026-27 Total Planned Expenditures Table

LCAP Year	1. Projected LCFF Base Grant (Input Dollar Amount)	2. Projected LCFF Supplemental and/or Concentration Grants (Input Dollar Amount)	3. # Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## **Purpose**

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## **Requirements and Instructions**

### **General Information**

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### **Reflections: Annual Performance**

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
  - If the LEA has unexpended LREBG funds the LEA must provide the following:
    - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
    - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
      - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
      - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
        - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
    - Actions may be grouped together for purposes of these explanations.
    - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
  - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

### **Reflections: Technical Assistance**

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

## Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

### Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

### Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## Engaging Educational Partners

### *Purpose*

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

## Requirements

### *Requirements*

**School districts and COEs:** [EC Section 52060\(q\)](#) and [EC Section 52066\(q\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## **Instructions**

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

### **Educational Partners**

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

### **Process for Engagement**

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### *Purpose*

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### *Requirements and Instructions*

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

**Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

**Focus Goal(s)**

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### **Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

#### **Description**

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

#### **Type of Goal**

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

### Broad Goal

#### Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

#### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### **Maintenance of Progress Goal**

#### Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

#### Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

### **Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of EC Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
  - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> <li>• Enter the metric number.</li> </ul>
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

## Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
    - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

## Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

## Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

### Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

## Actions:

Complete the table as follows. Add additional rows as necessary.

### Action #

- Enter the action number.

### Title

- Provide a short title for the action. This title will also appear in the action tables.

### Description

- Provide a brief description of the action.
  - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
  - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

### Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

### Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

### For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

### For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

### For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

### For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### ***Purpose***

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### **Statutory Requirements**

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

**LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Requirements and Instructions**

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

**Projected Additional 15 percent LCFF Concentration Grant**

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year**

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**LCFF Carryover — Percentage**

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar**

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year**

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**Required Descriptions:**

**LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis**

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

## Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

## ***Total Planned Expenditures Table***

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## ***Contributing Actions Table***

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## ***Annual Update Table***

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## ***Contributing Actions Annual Update Table***

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## ***LCFF Carryover Table***

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## ***Calculations in the Action Tables***

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### **Contributing Actions Table**

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

## **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education  
November 2024
